DOORS THROWN WIDE BY COURT

Will Hear All Testimony Regarding Campaign Gifts to Sulzer.

WHETHER LISTED IN CHARGES OR NOT

Prosecution Fails in Its Effort to Strike Out Mr. Schiff's Answer.

Albany, N. Y., Sept. 25.—The court of impeachment for the trial of Governor Sulzer today unanimously voted in favor of admitting all testimony in reference to the alleged campaign contributions received by the governor when specified in the articles of impeachment or not. The point arose on the testimony of Morris Sokulsky, a New York liquor dealer and former president of the New York City Liquor Dealers' association. He had known William Sulzer for twenty-three years, he said, and considered him an intimate acquaintance.

Marshall Raises Objection.

When he started to tell about the organization's contributions to Sulzer, Attorney Marshall objected, supporting his objection by a lengthy argument. He maintained that there was nothing in the articles of impeachment regarding this witness. The purpose of the articles of impeachment, he contended, was to give notice to a respondent of the nature of the accusations against him and to afford him time to prepare to answer. "We are now in the position," Mr. Marshall continued, "more than thirty days after the filing of the articles of being confronted with a charge which we have not been notified to defend. This is merely an attempt to recast the articles of impeachment at the very moment of trial."

Mr. Stanchfield in reply declared that the managers "have secured and are prepared to prove that Sulzer received a large number of contributions vastly in excess of those which appear on the face of the charges. There is no question as a matter of law but this evidence is admissable.

Deliberate Intent Charged.

"The managers charge that William Sulzer filed a false statement of campaign expenditures intentionally. He studiously concealed contributions from all sources where he thought their public acknowledgment might injure his political future. The amount was deliberately omitted by design and intent. Therefore, we claim that it is proper that we should show all instances wherein he acted in a manner that renders him unfit to occupy the high place he now fills.

"One of the governor's defenses is that the omissions were the result of a mistake. We charge that he deliberately set out to falsify his statement and that he accomplished his purpose. These transactions, a hundred or more in number, constituted a common scheme, a design on the part of respondent to display certain contributions and conceal others. I concede that the failure to report one might have been an accident, two a coincidence, but to fail to account for a hundred is a crime."

HE FLIPS CIGARETTE STUBS IN WIFE'S FACE.

Warsaw, Ind., Sept. 25.—Mrs. Charles Simms, charging her husband with being a habitual drunkard and with flipping cigarette stubs in her face, today sued for divorce and $3,500 alimony. Mr. Simms owns real estate valued at $40,000. Recently his mother took advantage of the new spendthrift law in the hope of checking her son's alleged reckless manner of living.

SEARCH FOR ELLIS GETS NO RESULTS

Indianapolis Police Abandon Idea That Brokaw is Man Wanted.

TWO ARE NOT SAME

Indianapolis, Ind., Sept. 25.—Search by local police today for Joseph Ellis, said to have been the man who murdered Joseph Schlansky, a merchant, in a room at a hotel here last Monday for the purpose of robbery, resolved itself into the question: "Who is Ellis, has he a double, is he impersonating another man, why is the resemblance between his description and that of Fred Brokaw, alias Broley, wanted in Pittsburg, and under arrest in San Francisco, so similar and are the two twins?"

The police have received no word from the circulars containing the description of Ellis, which they sent all over the country and continue their search for the fugitive here, following the tip of a rooming house keeper that a man, who she said answered the printed description of Ellis, had applied to her for lodging.

The police said today that they had completely abandoned the idea that Ellis and Brokaw are the same, but are two men who had adopted the same method of robbing their victims, whether by intent or accident, they did not know. That Ellis and Brokaw might be twins was advanced, but the police put little faith in the theory. Brokaw has admitted his identity and gave his home as Tacoma, Wash., according to word from San Francisco, while Ellis' parents live in Richmond, Va., and since the police say they are positive that the Schlansky murder was committed by Ellis, the man wanted here and the Pittsburg fugitive cannot be brothers.

Audra Baker Anderson, the girl who yesterday attempted to commit suicide because she said the man Roy Anderson, to whom she was married July 5, is Ellis, remained in a critical condition today, with little chance of recovery. The man said to have killed Schlansky registered at the hotel here as Anderson. The police continue to doubt the facts of her statement.

MR. TAFT TRIES OUT HIS "PULL"

Ex-President Urges Marble Instead of Granite for a Postoffice.

CALLS ON MR. WILSON

Washington, Sept. 25.—William Howard Taft, former president of the United States, today in the capacity of a private citizen urged Secretary McAdoo to give New Haven, Conn., the former president's adopted home, a marble postoffice. Whether a former republican president has sufficient influence with a democratic administration to have the structure built of marble instead of granite was to be decided.

When complimented upon the fact that he appeared in splendid health the former president laughed and said: "The report that I have lost 80 pounds is a malicious lie. It is only 60."

Regarding Representative Borland's resolution to supplant Mr. Taft and other republicans on the Lincoln memorial commission with democrats, the former president remarked:

"I suppose I might stand the loss. It wasn't much when they took the presidency away, but I tell you if they do likewise with this job it will hurt."

Later Mr. Taft called on President Wilson.

Garbage Plant in Its Present Location is a Nuisance and Offense- Hosey Would Like to Keep It There

(By the Non-Partisan City Central Committee.)

To the Voters of the City of Fort Wayne:

As a solution of Fort Wayne's serious garbage problem, the Hosey partisan platform gravely proposes this:

> We favor its enlargement and development at this time and believe the plant should be enlarged and developed in the future as the increased size and population may require.

The garbage plant referred to is the inefficient, expensive and out-of-date affair on North Clinton street. It is within a few squares of the business center of the city. It is flanked on one side by an ornamental bridge, built at great expense during Mayor Hosey's administration, and on the other side by one of the largest and finest of Fort Wayne's public parks. Is it not a beautiful gem for such a setting? Just across the Lake Shore tracks to the west is the great populous and rapidly improving North Side of the city. Just across Spy Run is the splendidly developing Spy Run district. When the wind blows the smoke and stench away from the North Side, it carries these offenses into the homes of Spy Run. When the wind is charitable to Spy Run, it punishes the North Side.

Ignore the indisputable facts that the old crematory is almost worthless, that it embraces the most expensive system known for the disposal of garbage, and that it is bad and never can be made good, does not the fact of its location where it is, place it under the seal of condemnation? Yet the Hosey partisan platform would keep it where it is, make it larger and therefore worse and perpetually condemn the thousands, who reside in that region, to the nuisance of its smoke and the offense of its stink. That is what the partisan platform means and pledges the Hosey party to do. Mr. Voter, is the garbage plank of the partisan platform a sign of any notion of efficient government? Is it any token that Fort Wayne can get ahead under such management? Think it over.

EDISON HALTED BY OFFICE BOY

Lad Who Didn't Know Him Bars Inventor's Way to Laboratory.

WINS PRAISE FOR IT

Orange, N. J., Sept. 25.—When Thomas A. Edison, who has just recovered from an illness, started to enter his laboratory here yesterday he was intercepted by a lad who had recently become attached to the laboratory office force.

"No strangers allowed in here," said the boy. "It is a rule that no one except employes can enter the building unless they have an appointment with Mr. Edison and you can't see him because he's home sick."

The inventor asked to whom he should go if he wished to make an appointment with Mr. Edison. The new boy summoned W. H. Meadowcroft, Mr. Edison's secretary, who was greatly astonished when he saw the "stranger."

"I've come to take up the work left off by Mr. Edison. I want to know if you are not desirous of employing a man who is willing to work now and then," said the inventor as he shook hands.

He added: "Meadowcroft, that boy you have here is all right. I hope he will continue to see that the rules of this laboratory are faithfully carried out."

THAW SENDS $50 CHECK.

Rewards Kindness of Man Who Provided Him With Overcoat.

Montreal, Sept. 25.—A check for $50 has been sent by Harry Thaw to C. Garceau, an immigration officer at Coaticook, for a kindness shown to the Matteawan fugitive the day he was deported.

Garceau was the man who ran to get an overcoat for Thaw on the cold morning when he was rushed across the boundary into the United States. Thaw sat shivering in an automobile and Garceau, noticing this hurried into the station and got his own overcoat for him. Thaw sent a letter of thanks to Garceau with the check.

KILLS INNOCENT MAN.

Bullet Fired by Chicago Policeman Deflected by Trolley Pole.

Chicago, Sept. 25.—A bullet fired by a policeman, Wm. Allen, at three highwaymen early today struck an iron trolley pole, deflected and killed William Lorimer, a tobacco agent. Three friends who were talking with Lorimer when he was shot seized the policeman and took him to the station where he was placed under arrest. Another policeman heard the shooting and captured the robbers.

WORLD SERIES OPENS OCT. 7

Giants and Athletics to Have First Clash in New York.

UMPIRES CHOSEN FOR BIG CONTEST

National Commission Maps Out Plans for the Championship Play.

Philadelphia, Sept. 25.—Assuming that the New York team will win the National league pennant the members of the national baseball commission today decided that the first game between that club and the Philadelphia American league team for the world's championship shall be played in New York on October 7.

The umpires agreed upon for the series are T. H. Connolly, John J. Egan, William Klem and Charles J. Rigler.

The second game will be played in Philadelphia on October 8, after which the clubs will alternate between the two cities.

In Case of Postponement.

In case a game is postponed because of rain or for some other cause or a legal game is not played the teams will remain in the city where the postponement occurred until a legal game shall have been played. In the event of a legal game resulting in a tie the two clubs will not play it off in the city where it occurred, but will move on to the next city the same as though the contest resulted in one of the teams winning.

All games will start at 2 o'clock and

FIND CHILD'S SKELETON IN SNELL MANSION WALLS.

Bloomington, Ill., Sept. 25.—In wrecking the mansion at Clinton, Ill., erected forty years ago by Col. Thomas Snell, a coffin containing the skeleton of a small child was found concealed in the walls of the structure. An inquest was held but no clue to the mystery was procured. The homestead has been untenanted since the death of Colonel Snell, whose will, disposing of a large fortune, was the subject of long and sensational litigation a few years ago.

PISTOL PLAY IS NOT IN EVIDENCE

Tennessee House of Representatives Develops No Gunmen.

FEELING RUNS HIGH

Nashville, Tenn., Sept. 25.—When the Tennessee house of representatives met today factional lines were tensely drawn, but order prevailed. So called "gunmen" were not in evidence. Speaker William Stanton assumed the chair without opposition from the supporters of the law enforcement bills.

There were no signs of the storm which broke late yesterday following abrupt adjournment of the house. A resolution was promptly adopted to clear the galleries and the floor of the hall of all but members of the house, newspaper reporters, state officials with business there and ladies. Members of the senate were excluded.

The wrangle in the house is over bills seeking to insure the enforcement of prohibition, of which three have passed the senate, one prohibiting intra-state liquor shipments, another making saloons a nuisance to be abated in civil and criminal courts and a third prohibiting shipments of liquor into the state. The fight of the friends of the bills, largely fusionists is directed toward getting them to a vote in the house. The bills' supporters charge the opposition with attempting to defeat the bills by preventing a vote. The extra session is due to expire Saturday.

DROPS DEAD IN COURT ROOM.

Widely Known Brewer Expires After Testifying at Brooklyn.

New York, Sept. 25.—Max Bernheimer, a widely known brewer, dropped dead in a supreme court room in Brooklyn yesterday afternoon after concluding his testimony in a suit brought by Gustave Kenz, a painter against Bernheimer's brewing company. Kenz said his eyes were injured from acids in vats in the brewery. Bernheimer was seized with an attack of heart failure apparently occasioned by the excitement of testifying.

Buffalo, Sept. 25.—On the eve of reuniting his family from whom he had been separated for five years, Abraham Becker, 46 years old, fell under a wagon last night and was killed. Two months ago Becker sent to his wife in Russia the savings of years to bring her and their four children here. They are due next Monday.

RESTORE FIELDS FIRST BIG STEP

Then Farmers Need Not Fear Foreign Competition, Says Speaker.

MR. WING'S ADVICE

Piano, Ill., Sept. 25.—When farmers in the states east of the Missouri river have learned to restore their sour and poor fields by scientific fertilizing they need no longer fear competition from abroad, Joseph E. Wing, of Mechanicsburg, Ohio, today told agriculturists at the farmers' national congress here. The financing of this general soil enrichment could be done after some plan formulated by the American commissioners, who have made a study of the agricultural credit systems of Europe, he asserted.

"The farmers must learn the basic principles of soil fertility," Mr. Wing said. "American soils are not, east of the Mississippi river, by nature filled with the amount of lime that they need and they also are deficient in phosphorous. When we have learned to satisfy the lime-hunger of eastern soils, then they will grow legumes. When we have given them the phosphorous that they need, then the legumens grow more vigorously. The land which grows legumens makes meat cheaply.

"The soils of Argentina are full of limestone and wild clover sprout spontaneously all over them, while alfalfa grows there like a weed. This gives the Argentina farmer a great advantage over his American competitor.

"When clover and alfalfa overrun a million fields that today art too poor to grow weven weeds, then we will, I think, cease to import grains and meats and potatoes from abroad and will laugh at the day when the American farmer allowed the foreigners to pour in our markets ship loads of their produce."

HAFFNER IS NOW VICE-PRESIDENT

Fort Wayne Man Moves Up in a National Association of Master Bakers.

CHOSEN AT BUFFALO

(Special to The Sentinel.)

Buffalo, N. Y., Sept. 25.—George M. Haffner, of Fort Wayne, was elected vice president of the National Association of Master Bakers at its convention in Hotel Statler shortly before noon today.

Mr. Haffner has been a member of the executive committee, and as vice president he succeeds Mark Bredin, of Toronto, Ont., who was elevated to the presidency.

Following the accepted precedent, Mr. Haffner will next year automatically become president of the association unless he should conclude to decline the honor.

PAINTED LINCOLN'S PORTRAIT.

Artist Conant Celebrated His 93d Birthday in New York.

New York, Sept. 25.—Alban J. Conant, the painter to whom Lincoln sat for a portrait before he became president, celebrated his ninety-third birthday here yesterday in the Tenth street studio which he has occupied more than thirty years. Active in mind, Mr. Conant enjoys fairly good health and every day finds him busy with brush and palette.

Mr. Conant knew Lincoln personally, both at Springfield, Ill., where in 1860 he painted the famous "Smiling Lincoln," and at Washington, D. C., where, during the civil war he had commissions to paint many celebrated officials and notables of the day. Mr. Conant's father was a house and sign painter.

MAY COMPLETE REPORT TODAY

Tariff Conference Hopes to Get It Before Congress Tomorrow.

MUCH INTEREST IN INSURANCE ACTION

Dividends Returned to the Policy Holders Exempt from Income Tax.

Washington, Sept. 25.—Great interest centered today about the decision of the tariff conferees to exempt from the income tax that portion of the premiums on mutual life insurance policies returned to policy holders as dividends. Such action on the part of the conferees was unexpected, as the amendments originally made by the senate to that end had been dropped out before the bill went into conference.

Under the decision reached last night all life insurance companies issuing mutual policies and mutual marine insurance companies are treated similarly. No part of their income is exempted except that part of the premium on any policy that is returned to the policy holder as a dividend or rebate. The senate finance committee determined on such action many weeks ago but the amendment laid before the senate was not satisfactory and was later withdrawn at the voluntary motion of members of the finance committee. The conferees decided last night that the provision was still within their jurisdiction and that they had authority to make the change.

Many Have Urged It.

Holders of mutual insurance policies, and insurance officers throughout the country have urged that such an exemption ought to be a part of the income tax to protect the right of persons who hold dividend paying policies.

The conferees today took up final work on the tariff bill. When they left the capitol at midnight last night, it was with the hope that the conference report could be sent to the government printing office late today and be laid before the two houses of congress tomorrow. Few questions now remain.

President Wilson's suggestions and advice have aided the conferees in disposing of all questions relating to foreign tariff or trade policies.

Congress May Take It Up.

On the heels of the interstate commerce commission's scathing denouncement of the New Haven road for the recent Wallingford wreck, in which it was held that "man failure," beginning with its high officials and ending with its trainmen, were responsible for the loss of twenty-one lives, sentiment in congress rapidly began to crystalize in a movement to take up the whole subject for train safety at the December session.

Backed by the influence of the interstate commerce commission, an effort will be made to empower the commis-

DEAD LETTER OFFICE TO HAVE BARGAIN SALE.

Washington, Sept. 25.—From worsted aviation caps to fish hooks is the range of articles which the dead letter office is about to auction off, as the result of a year's accumulation of misdirected mail. The published list reads like a department store catalogue. Golf balls, crab nets and cartridge belts, calabash pipes and cigars and cigarettes, pocket flasks and shaving sets, an ear trumpet, hot water bottles and ice bags, all of these various implements, along with all sorts of articles of wearing apparel, will go under the quick hammer of the auctioneer when the sale starts next Wednesday.

Gasoline and Whiskers

RESIDENTS of a section of John street were somewhat alarmed the other day to see a young lady running down street, followed closely by a man who had the appearance of chasing her with anything but friendly intent. The man was bareheaded; he had something about his throat that seemed to be a sort of white shawl; he appeared to be frothing at the mouth.

The fact is, however, that he was not chasing the young lady. He did not have a white shawl about his throat. He was not frothing at the mouth.

What then? We'll start at the beginning:

Miss Marie Match, forelady at the plant of the Fort Wayne Corrugated Paper company, was lighting the gasoline stove at her home, 2441 Smith street, when some of the gasoline poured out of the little cup beneath the burner and spread over the metal surface below. When she touched a match to the fluid, it flamed up with such a fierce aspect that Miss Match feared that the fire would catch its surroundings and destroy the house. She had presence of mind, however, to turn off the dripping gasoline and then to dart out of the house to call for help. Her father, John Kran, was being shaved in a barber shop half a square away. Miss Marie hurried hither and sounded the alarm. Mr. Krah, with his face covered with lather and

Frothing at the mouth.

with the barber's napkin still about his neck, darted out of the door and started in the direction of home toward which the daughter had already gone. It was at this moment that the chase, shawl and "froth" mystified the neighbors.

Arriving at home everything was found to be peaceful and quiet, with no evidence of a conflagration.

Then Mr. Krah went back to get the rest of his shave.

MAKE PLANS FOR MEETING IN NINTH

Non-Partisans to Erect a Big Tent in Center of Bloomingdale.

THE POLITICAL GOSSIP

At the regular weekly meeting of the non-partisan central committee this evening at headquarters on East Berry street, arrangements will be completed for a meeting to be held Tuesday night in the Ninth ward, and speakers for the evening will be announced. A large crowd of non-partisans is expected to attend, and a big tent will be raised for the meeting at the corner of St. Mary's avenue and High street.

Arrangements will also be made for other ward meetings to be held during the remainder of September. Judge John H. Aiken, chairman of the speaking committee, has practically all of his time occupied this week with a case in the circuit court and has had but little opportunity to complete the assignment of speakers for the remainder of the campaign.

Democrats Meet.

The Hosey democrats met last night in the Sixth ward and listened to addresses by Attorney William O'Rourke, William J. Hosey, Dr. H. O. Bruggeman, Guy Colerick and Louis C. Rippe. Mr. Hosey, in opening his address, declared that if he had not been nominated for mayor, there would have been no non-partisan movement in Fort Wayne. He declared also that he had positively made no promises or selections regarding the appointive positions in the city, if elected. He closed by discussing municipal affairs and declaring himself in favor of the extension of the municipal lighting service.

In the course of his address Mr. O'Rourke made the charge that Mr. Buck had operated a "blind tiger" in connection with his grocery establishment.

Mr. Colerick discussed the personnel of the non-partisan movement and confined his remarks, in a measure, to an attempt to "show up" men identified in the movement, who at one time or another held office in the county. Jacob Hartman, democratic candidate for councilman, also addressed the meeting.

LaTourette Speaks.

William H. LaTourette, republican candidate for mayor, spoke in the First ward last night, and again devoted much of his time in explaining that he is not a candidate to further the interests of William J. Hosey, the democratic candidate, or for the purpose of getting an appointment under the democratic administration. He also discussed the bond issue and other municipal affairs of current interest and stated that if elected he will leave nothing undone to bring about the strict enforcement of all laws. He declared that his would be an economical administration.

This evening the republicans will hold a meeting at the corner of Maumee and Grant avenues.

Precinct Organizes.

The democratic precinct committee in precinct A, Adams township, was reorganized at a meeting held last evening and Gustave Oberwitte was elected chairman; Lewis J. Auer, secretary, and L. J. Schmidt, treasurer.

Unstewed Cobbler Wants to Realize on Bond He Didn't Furnish.

NEWS OF THE POLICE

"All righd, chudge; I see you haf to your senzes come yet. Now you undershtand idt. I vill haf me my vifty by you again undil I vill get me bagk indo pizzness yet."

"You had better toddle along, Puff, and not bother about that fifty; maybe you owe the court seventy-five dollars."

"Ah, but dot ish not vot you say to me again ven I haf bin in here before. You say, 'Puff, I gif you vifty tollar by der bondt.' How aboudt dot, hey? How aboudt dot, chudge?"

It took some talk from Judge Mungoven to ram it into the mind of Carl Puff that when, a week ago, the drunk charge against him was continued and his bond fixed at $50, it was not the promise of a gift of fifty bucks in lawful money of the realm. Puff's case came up for determination this morning, and when the court told him he could go he wanted his $50 to re-open his cobbler's business, which he abandoned some time ago to take up the pleasanter pursuit of a barroom jester. Puff's week in jail had done him good and he was more thoroughly unstewed today than for a long time. Puff is a diminutive German shoemaker. He is about the size of a family bottle, but can hold more. He is thought by habitues of certain barrooms to be comical when his souses get to working right and the result is that drinks come easy and tolerably fast. Judge Mungovan admonished him to go to work and drink and loaf less.

Giving Bill Burns a Chase.

Tom Tancey, stored a full cargo jigwaters in his hold last night and conceived the laudable design of giving Bill Burns a little chase for certain honors that Bill has held in monopoly for some time. That is why the police answered a burglar alarm from the Abe Fields home, 1014 Monroe street, about 9 o'clock last night. Tom started from the swirling center of the city for his domicile, on Bracksenridge street unshipped his rudder and beat about unknown seas until he finally made port in the Fields home, where he berthed on a davenport in the best room. When Mrs. Fields discovered him she was frightened and called the police. Tancey did not realize even this morning in court just what had happened. But he will before his eleven days in jail are up.

Other Police Court Cases.

In default of $500 bond, Charles Shoemaker went to jail until October 2 to await trial for neglecting his children. He was arrested in Lafayette and brought back here by Detective Sergeant Walter Immel.

Herby Dye, colored gent, was nosing around suspiciously at the plant of the Indiana Road Machine works, and giving no good account of himself, was held until October 2.

Harry Stokes, drunk, and Walter Haines and Thomas McManen, loiterers, were turned loose. Sam Thompson, another drunk, was continued until tomorrow.

John VanAllen, charged with drunkenness, got eleven days after being held a week for trial. He had some money and a certificate of deposit for $50 belonging to another man at the time of his arrest. The souse was his own and he got it out of a bottle thrust upon him a week ago Sunday by the mysterious stranger, whom he met on the Wells street bridge.

BACHELOR JUDGE IN FAMOUS 'FRISCO GRAFT CASES SOON TO WED.

JUDGE WM. P. LAWLOR AND HIS BRIDE-TO-BE. THE JUDGE HAS LONG BEEN KNOWN AS A CONFIRMED BACHELOR.

San Francisco, Sept. 23.—Superior Judge Wm. P. Lawlor, famous for having handled the noted graft prosecutions of this city, during which some of the richest men of the west were prosecuted as grafters, chief of whom were Abe Ruef, Pat Calhoun, Wm. F. Herrin and Louis Glass, has just been handed a life sentence by "Judge" Dan Cupid.

There has been a stay of execution and sentence will not go into effect until about Christmas. Then the judge will be married to Miss Mary Lee Henry, of San Diego, whose father is an intimate freind of Champ Clark.

"In this, my life sentence, I am a first termer," says the judge, "but I feel sure that Judge Hymen will be as lenient with me as I have always been in sentencing first termers."

DANIELS URGES A LOYAL PRESS

Naval Secretary Speaks at Associated Press Newspapers' Dinner.

GOVERNOR A GUEST

Indianapolis, Sept. 25.—Standing near a magnificent floral battleship on the speakers' table last night in the banquet room of the Claypool hotel, Secretary of the Navy Josephus Daniels expressed to a distinguished audience of editors, public officials and literary men attending the Indiana Associated Press dinner, some of his ideas regarding the attitude of the press on diplomatic questions involving the policy of the government. Secretary Daniels referred particularly to the attitude of the press toward Mexican affairs.

The secretary took some pains to point out that an act by the president of the United States makes his policy a government matter, and he hinted that an adverse position by the press of the country constituted disloyalty.

Battleship of Carnations.

While the secretary was speaking James Whitcomb Riley, on one side, and Governor Ralston on the other, faced the menacing guns of the four-foot battleship of carnations unflinchingly. Meredith Nicholson, Addison C. Harris, Judge A. B. Anderson of the federal court and John C. Shaffer, other notables within the shadow of the floral guns, were interested listeners to the secretary's address.

Every feature of the decorations was arranged as an honor to the cabinet member. Behind him on the wall was a huge Union jack and the menu cards bore a miniature flag of the secretary of the navy—blue square with white stars in each corner and a white anchor in the center. The national colors were scattered profusely throughout the banquet rooms.

Fairbanks as Toastmaster.

Former Vice President Fairbanks presided as toastmaster and introduced Secretary Daniels. In the course of his address the secretary said:

"It is not for me to tell any brother journalist what his duty is in the day of international differences. It is for me but to raise the question and put it in the heart and conscience of every American journalist: Am I blood-guiltless of any publication in my journal that tends to inflame national anger, to provoke national hatred, to weaken international amity and friendship, or to fan the flames that leap into the hell of war? I merely ask these pertinent questions in view of recent international differences that will be adjusted in honor and in peace. I am confident that American journalists will, by contributing to the world's peace and to the strengthening of the ties of friendship, hasten the day when nations shall know war no more."

Praises Careful Service.

Governor Ralston received a hearty ovation when he arose to speak.

Governor Ralston said in part:

"I am glad to speak a word of appreciation of the services rendered by the Associated Press. It has engaged in work requiring the greatest ability and the most inflexible intergrity, considering the haste that must necessarily accompany gathering and publishing the news. It hazards its reputation for trustworthiness whenever it fails promptly to discover and truthfully to report daily happenings.

"The power of the Associated Press is great. It is a powerful factor in the formation of public opinion, and public opinion is stronger than statutes. It makes and unmakes constitutions. It reverses the decisions of courts of last resort and is the people's surest shield against social leprosy and public grafting.

"The achievements of the Associated Press are the highest testimony that the pen is mightier than the sword. The former conquers through men's higher nature, through argument, persuasion and love; the latter appeals to brutal instinct, to force, coercion and shedding of blood. And haven't we learned through the press that the pen in the hand of the man with a heart—in the hand of the man with a vision—is invincible in winning the world to his ways of justice, purity and peace?"

WORLD SERIES OPENS OCT. 7

(Continued from Page 1)

there will be band concerts on each ground from 11 a. m. to 1 p. m.

In New York the following prices will prevail: Boxes, accommodating four persons, $25; upper grand stand, reserved, $3; admission and entire lower grand stand, unreserved, $2; bleacher seats, $1. Unreserved seats will be sold at the Polo grounds on the day of the game "first come, first served." Reserved seat tickets must be purchased for three days from both clubs. In the event that three games are not played the clubs will refund the money for the third game tickets.

In Philadelphia the prices will be: Box seats, $5 each; reserved seats in main grandstand, $3; reserved seats, right and left field pavilions, $2; bleacher seats, $1. The sale of tickets both in New York and Philadelphia will be under regulations made by the clubs themselves. The commission announced on behalf of the two clubs that mail orders will positively not be received.

Other Restrictions.

Neither club will be permitted to construct extra stands on the fields. No spectators will be permitted to overflow on the fields and there will be no ground rules.

Official scorers will be Francis C. Richter, Philadelphia, and J. G. Taverspink, St. Louis. William J. MacBeth, New York and Joseph M. McCreary, Philadelphia, will have charge of the newspaper arrangements in their respective cities. Applications for seats are to be made to them.

The commission appointed Leslie H. Constant, secretary of the Pittsburg club, to represent it in both cities but he has not yet acceped the appointment. A preliminary meeting of the commission will be held in New York on October 6. Harry N. Hempstead, president, and John B. Foster, secretary, represented the New York club and the interests of the Philadelphia Americans was looked after by Benjamin F. Shibe, president of the club.

Flip of Coin Decides It.

The date and place of the opening game was decided by a flip of a coin. As Garry Herrmann, chairman of the commission, tossed a half dollar into the air Mr. Hempstead called "head" and so it fell. In the next instant he called out "New York, October 7."

The national commission after disposing of the world's series details, appointed Umpires O'Loughlin, Sheridan, O'Day and Orth to officiate in the Chicago series, which begins on Oct. 7. Umpires Byron and Evans will be the arbitrators in the Boston city series, which also starts on Oct. 7.

DEATH COMES TO VETERAN GROCER

Ignatius Freiburger Had Long Been Active in Local Business.

WAS WIDELY KNOWN

Ignatius Freiburger, one of Fort Wayne's best known business men and proprietor of two of the city's largest grocery establishments, died at 5:15 o'clock Wednesday evening at the family residence, 520 West Jefferson street, at the age of sixty years. While Mr. Freiburger had been in poor health for several years, his condition became serious only a week ago, and his death came as a surprising shock to his hundreds of friends. Death was directly due to diabetes.

IGNATIUS FREIBURGER,
Prominent Groceryman Passes Away After Brief Illness.

Mr. Freiburger had been actively identified with the grocery trade in Fort Wayne since 1874, when he accepted a position with Captain J. B. White at the Fort Wayne Fruit House, and in that business he became personally acquainted with hundreds of farmers throughout Allen county, as well as residents of the city. He had long been prominent in business circles and was a member of the Knights of Columbus, St. Joseph's league, French-American society, Fort Wayne Commercial club and the Fort Wayne Retail Merchants' association. For years he had been actively identified with these organizations and his death is deplored by all and removes from the city one of its most progressive men.

Mr. Freiburger was born at Schlettstadt, Alsace, France, September 16, 1853, and he came with his parents to America in 1857. The family settled on a farm in Pleasant township, where Mr. Freiburger remained until he was a young man. He attended the public schools until he was 14 years of age and then entered the employ of Gerardin Bros., with whom he remained five years, attending a commercial school in the meantime.

His first venture in the grocery business was made in 1874, when he took employment at the White Fruit House. His advance in commercial activity was rapid and after a short time he was made general foreman of the establishment. After twenty-eight years in the service of the Fruit House he embarked in business with C. J. Michel, in 1902, establishing the Central grocery, on West Wayne street. Later he purchased the interests of Mr. Michel and as sole proprietor of the establishment, became eminently successful and later established a second store, the Wayne grocery, on Broadway. Associated with Mr. Freiburger in business were his three sons—Marcelles, Clarence H. and Lawrence Freiburger.

Mr. Freiburger was united in marriage to Miss Mary Schwieters August 30, 1881, and to this happy union six children were born. They are Frank L., of the German-American National bank; Marcelles, Clarence H. and Lawrence I. Freiburger, Mrs. Charles S. Freistroffer and Miss Helen Agnes Freiburger, all of this city. Surviving besides the children he leaves the grief stricken widow and a grandson, Charles S. Freistroffer, jr. He also leaves six brothers and two sisters—Bernard, John, George and Joseph J. Freiburger, of this city; Peter Freiburger, of Mishawaka; Anthony C. Freiburger, of Grand Rapids; Mary Freiburger and Mrs. Caroline Koorsen, of this city.

In politics Mr. Freiburger was a democrat and at different times took an active place in local and county campaigns. He was a member of one of the city's early volunteer fire departments and had long been a member of St. Paul's Catholic church and of the different societies of that congregation.

Among the striking traits of Mr. Freiburger's character was his unfailing devotion to his home and his family, and his thoughtfulness and kindly consideration for others that made his friendships so extended and so valued. In business also Mr. Freiburger gave the closest attention and his methods of punctuality and system were fixed attributes of his life.

Funeral services Saturday morning at 8:30 o'clock from the residence and at 9 o'clock from St. Paul's Catholic church.

DOORS THROWN WIDE BY COURT

(Continued from Page 1.)

Submits It to Court.

Presiding Judge Cullen then rendered a long opinion on the question, at the conclusion of which he announced he would overrule the motion and submit it to a vote of the court. The presiding judge said that if the present case were a criminal trial he would be disposed to exclude evidence on charges not specified in the indictment.

"This case, however," he said, "should be construed with greater latitude."

He added that article six of the impeachment had mentioned the receipt of $30,000 by the governor without naming the donors and that counsel for the respondent had ample opportunity to ask for a bill of particulars.

"This," said Judge Cullen, "they did not do."

Will Not Strike It Out.

Presiding Judge Cullen today overruled a motion of the prosecution to strike from the record the answer of Jacob H. Schiff yesterday in which he said he did not intend his $2,500 gift to Sulzer as "campaign expense," and that he placed no restrictions on how it was to be used.

Governor Sulzer and his attorneys emerged in good spirits today after a conference which lasted several hours. Judge Herrick was asked if the testimony given to the impeachment court yesterday had caused any change in the plans of the defense. He smiled broadly as he replied:

"I don't think it will be necessary for Governor Sulzer to go on the stand."

Nevertheless the governor is still at work assembling the story he expects to tell. He has assured his friends that "it will prove a knockout blow to the case of the impeachment."

Would Recall Schiff.

In view of the testimony of Jacob H. Schiff, a New York banker, yesterday that he contributed $2,500 to Governor Sulzer's campaign fund with no restrictions on how it should be spent, lawyers for the prosecution decided to recall him to the witness stand at the impeachment proceedings today. They hoped to draw from the banker a qualification of his unreserved statement made yesterday. Meantime counsel for the impeached governor were satisfied to sit back and wait for the next move of their opponents. They regarded the testimony of Mr. Schiff as a big early victory for them.

Other witnesses called to testify regarding the governor's financial deals were on hand when court opened. Isador Kreisel, of counsel for the prosecution, said he intended to build up the story of the governor's various financial deals by the testimony of bankers, bank employes and employes of Wall street brokerage firms. Thomas M. Godwin, paying teller of the Farmers' Loan and Trust Company of New York city, was on the stand when court adjourned last night. He refused yesterday to answer certain questions "on the advice of counsel" and was reprimanded by Presiding Judge Cullen.

Will Reconvene Tonight.

Both the senate and the assembly will reconvene tonight after a recess since last Friday night. The senate plans to do little more than adjourn again, but the assembly leaders will resume their attempt to round up enough votes to guarantee the passage of additional impeachment charges. Seventy-six votes are required.

The new charges, drawn up last week by the board of managers, are that the governor made a pre-election promise to appoint Julius Broder state commissioner of health; that he failed to account for his direct primary campaign fund and that he usurped the powers of the executive office after being impeached.

Attacks Schiff's Answer.

At the opening of today's session Edgar T. Brackett moved to strike from the record the answer of Jacob H. Schiff yesterday in which the witness said he did not intend his $2,500 gift to Sulzer as "campaign expenses." "The intent of the witness cannot affect the intent of the receiver of the fund," argued Mr. Brackett.

Louis Marshall, of the Sulzer counsel, argued against the motion. "This case should be considered," he said, "precisely the same as if we were trying an indictment—as if the defendant had committed the crime of larceny. You cannot be made the victim of a crime of larceny when the giver places no restrictions on the gift he makes."

Presiding Judge Cullen refused to strike out the answer.

"If it was a common law larceny," said the judge, "I should be certain that my ruling was correct, although there must be a trespass in common law. I feel that the same ruling should apply here. I may change my mind, but for the time being I must reiterate my previous ruling."

Judge Cullen added that Mr. Schiff's intention at the time and not his intention at the present time was the question that should be considered.

"That's all we want," commented Mr. Marshall.

Paying Teller Recalled.

Thomas M. Godwin, the paying teller of the Farmers' Loan and Trust company, was then recalled. He was first questioned by Attorney Stanchfield concerning the instructions he had received from the attorney for the trust company not to testify to signatures that had not passed through the institution in which he is employed. Mr. Stanchfield handed the witness a check of the Frank Y. Straus company for $1,000. The check was endorsed "William Sulzer." At first the witness was inclined not to identify the signature, but finally he answered: "I am of the opinion that it is the signature of William Sulzer."

Godwin then yielded and identified the signature on the two checks he had declined to identify yesterday—those of Abram Elkus for $500 and the Lyman H. Spaulding check for $100. The witness then testified to cash deposits totalling $14,400 made in his institution by William Sulzer between Sept. 12, 1912, and his inauguration.

Mr. Stanchfield called Abram Elkus to the witness stand after Godwin was excused. Mr. Elkus said he had known William Sulzer for about twenty years. He identified a copy of a letter he had written Mr. Sulzer on October 4. In the letter Mr. Elkus, after congratulating the governor-elect upon his nomination, said:

"I know congratulations are very pleasant and very nice, but a campaign to be successfully conducted requires something more than words and so I am enclosing my check for $500 to aid in the expenses of your campaign."

Mr. Stanchfield then produced the governor's letter in reply. It was very brief. It thanked Mr. Elkus "many times," and said: "I appreciate every word you say and all you have done."

"I suppose," queried Mr. Stanchfield, "it did not escape your notice that in the reply there was no acknowledgment of the receipt of the check?"

Mr. Marshall was on his feet in an objection.

"Objection sustained," ruled the presiding judge instantly.

Munich, Sept. 25.—Princess Augustine Victoria, wife of former King Manual, of Portugal, was ordered by her physicians today to return to the hospital and remain there for some time as she needs a complete rest. She is suffering from influenza following a chill caught during an excursion in the Bavarian Alps. Her condition is not serious, but the doctors consider it advisable for her not to travel to Sigmarengen at present as she had intended doing.

CITY SO GOOD MARSHAL QUITS

Kingston Calaboose is Sold at Auction; Converted Into Henhouse.

THIS TOWN A MODEL

Kingston, Mo., Sept. 25.—Lanta Oliver, city marshal of Kingston for fifteen years, resigned today because, as he said, "there are no more duties for a mashal to perform in this town."

Once Marshal Oliver was a busy man. The doors of the calaboose swung often. Three drug stores did a saloon business, without a bar. There were two pool halls and a bowling alley. But times changed, dry sentiment ran out two of the drug stores. There is only one now, and it is law-abiding. Pool halls and bowling alleys were closed up. Arrests were so few that the town council sold the calaboose at auction. Bole Brown bought it for a henhouse.

Oliver said his patriotism made him ashamed to draw his salary, and, besides, if he ever found any one to arrest he would have no place to put him, so he resigned.

The McChord bill, according to Mr. Stevens, will be ready for introduction in the house next week.

After public hearings Mr. Stevens hopes to present a report and a revised bill to the house late in November so that it may be taken up immediately after congress convenes in December. The hearing today was devoted to inventors. Experts in railroad operation will be heard before a report is made.

KUHLMAN IS REARRESTED.

Columbia City, Ind., Sept. 25.—Ora Kuhlman, of Churubusco, ex-saloonist, who served a ten days' suspended sentence in the Whitley county jail, secured his liberty Wednesday, but not until Jim Galvin, the horse buyer, signed a $500 bond with Kuhlman, to appear at the first day of the November term of court. His companion, Dan Lung, who was apprehended in Fort Wayne recently, and held up on a ten days' suspended jail sentence, will get out Friday morning, and, as far as known, nothing more hangs against him. Both sentences were for liquor violations at Churubusco in April, 1911.

ECZEMA ON SCALP ITCHED AND BURNED

Would Fester and Come to Head. Could Not Sleep. Hair Fell Out. Cuticura Soap and Ointment Cured in Two Weeks.

R. F. D. No. 2, Seymour, Mo. — "My scalp broke out with fine pimples at the start. They itched and burned so much that

I was compelled to scratch them and they would fester and come to a head and break out again. The trouble was attended by such burning and itching I could not sleep, also when I sweat it burned the same. My hair fell out gradually and the scalp kept rough and dry with itching and burning. After about two years the pimples broke out between my shoulders. My clothing irritated them. I was troubled with that eczema five or six years.

"I tried everything that was recommended without any benefit until I used the Cuticura Soap and Ointment according to directions, and Cuticura Soap and Ointment cured me sound and well in two weeks." (Signed) S. L. Killian, Nov. 22, 1912.

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

SENSATION IN A VAN WERT COURT

Under Cross-Examination, Mrs. Hoser, Seeking Divorce, Uncovers a Checkered Past.

Van Wert, Ohio, Sept. 25.—The suit for a divorce brought by Ora Houser against Ode Houser proved one of the most sensational ever heard in the local court house, as well as one of the most salacious; three witnesses were examined, the third being the fair plaintiff herself, and she made a very good witness until cross-examined. The defendant's attorney was loaded, and his first question brought forth a most damaging admission. He had a large envelope filled with clippings from various newspapers and presenting one after another, he forced the plaintiff to admit that she had co-habited with other men in other cities, as well as in Van Wert, and that her conduct had been such that she had been ordered to leave one or two towns. She also involved men, well known locally. Those in the court room were stunned at her brazenness, and at the conclusion of her testimony the court intimated that no more evidence was needed, unless it was to the effect that the admissions made by the plaintiff on the stand were false. Her attorney explained that he was entirely unacquainted with the side of the case, which had been brought to light, when the court in a few well chosen words scored the plaintiff severely, and refused her petition, and ordered her to pay the costs in the case. It is more than likely that in view of her admissions on the stand, that her case will not only be presented to the grand jury, at the coming sitting, but that the case will be called to the attention of the federal authorities, as it would appear that the Mann white slave act has been violated.

LARKS WIN TIGER SUIT.

Portland, Ind., Sept. 25.—Judge J. J. Moran, on Wednesday forenoon, in passing judgment in the blind tiger charge brought against the Portland Temple, No. 1, Supreme Order of Larks, of this city, held for the lodge, dismissing the charge for want of jurisdiction. The evidence in the case was submitted on Tuesday morning, following the withdrawal from the case of S. A. D. Whipple, attorney for the defendant order. The affidavit was filed against the lodge as a corporation, alleging that it unlawfully kept, run and operated a place where intoxicating liquors were sold, bartered and given away in violation of the law of the state. The charge was filed by Marshal Geo. W. Tieben following a raid made on the club rooms on June 22, when Charles Shannon, of South Portland, made an affidavit for a search warrant. A total of 521 pint bottles of beer were confiscated in the raid and later replevined by the lodge.

PINCHED WHILE PROWLING.

Columbia City, Ind., Sept. 25.—Lester (Butch) Johnson, aged 20 years, son of Frank Johnson, of Fort Wayne, was arrested on North Line street by Policeman Milo Yontz and Simon Gardner, and brought to the office of Mayor B. J. Bloom. The Johnson family moved to Fort Wayne a year ago last winter. The young lad is out here on a visit. Johnson was found in the residence of Clyde Eisaman, none of the family being at home, and the house was open when he entered. A charge of intoxication was preferred against him and he was assessed $5 and costs, which he was unable to pay and went to jail for fifteen days.

ULTIMATUM TO THE WABASH.

Huntington, Ind., Sept. 25.—An ultimatum was delivered to the Wabash railroad by the Huntington council in the form of a resolution demanding that the railway repair the street crossings in Huntington within thirty days or suffer the consequences. In fact the notice that will be sent to the railroad officials will be so forceful that it will contain a clause that if the repair work is not done within thirty days the mayor will order the city engineer to proceed with the work and the cost will be charged to the railroad.

HAVE ADOPTED PORTLAND BABE.

Portland, Ind., Sept. 25.—Little Edward Grant Shepherd, nineteen months old, son of Morton Shepherd, a local coal oil vendor, was on Wednesday morning adopted as the child and heir at law of Henry C. Holheinz and wife, of Fort Wayne, the foster father being one of the passenger conductors on the Grand Rapids and Indiana railroad, and until last Saturday in charge of one of the trains running through this city. The mother of the babe is dead, having passed away only a few days following the birth of the child.

BORN IN ALLEN COUNTY.

Stephen L. Chase, Aged 67 Years, Dies in Churubusco.

Churubusco, Ind., Sept. 25.—Stephen Levi Chase, a well known citizen of Churubusco, died after an illness dating back several weeks, death being due to a complication of diseases.

Mr. Chase was born in Eel River township, Allen county, on December 4, 1845, he being a son of Mr. and Mrs. Uriah Chase, deceased, and at the time of his death he had reached the age of 67 years, 10 months and 20 days. The deceased received his early education in the public schools of Allen county and was reared on a farm. After reaching his majority he acquired a farm of his own, which he operated, and was known as one of the most prosperous farmers in that section of the county. Six years ago he was forced to give up farming on account of ill health and then moved to Churubusco, where he had since made his home.

He was united in marriage on April 20, 1873, to Miss Sarah E. Rhodes, of Noble county, who survives, and to this union three children were born, two daughters surviving, namely, Mrs. Otis Cotton and Mrs. Frank Longsworth, both of Eel River township, Allen county. The son preceded the father in death some years ago. The deceased was a member of the Baptist church, he having affiliated himself with that denomination when but a young man.

Mr. Chase was a man who was held in the high esteem of all who knew him and was known to be a man of his word and his honesty was never questioned. The funeral services will be held Friday afternoon from the Baptist church, Rev. D. W. Sanders officiating and interment will be made in the Eel River cemetery.

GETS $350 FOR HUSBAND.

Huntington, Ind., Sept. 25.—Settlement for damages in the sum of $350 was reached in a suit entitled Alice F. Ferrell, administratrix of the estate of James P. Ferrell, deceased, vs. the Fort Wayne and Northern Indiana Traction company. James P. Ferrell, with Clarence Dennis, two Roanoke youths, met tragic death recently on the Coe street crossing of the traction line in Roanoke when a motorcycle which the Roanoke men were riding was struck by a traction car. In accordance with law, a complaint was filed in the circuit court in which damages of $350 were asked from the traction company. The case was given trial before Judge S. E. Cook, who rendered judgment against the traction company for the damages amount agreed upon by the litigating parties.

DR. OLIVE NELSON IS DEAD.

Huntington, Ind., Sept. 25.—Dr. Olive Nelson died at her home on Franklin street after an illness that covered a period of three years. Death was not unexpected, as several times during the last few weeks she was at death's door. Although expected, her death will be a shock to many who have been intimate with her or have been the recipient of her many kindnesses and charities. Olive Nelson was born in Ohio in 1858, and removed to Indiana with her parents and two brothers and a sister in 1866. In 1890 she came to Huntington and for the succeeding seven years taught in the public schools. After graduation from a medical college Dr. Nelson returned to this city and was an active practitioner until failing health forced her to give up her duties.

WOMAN TAKES BICHLORIDE.

Hartford City, Sept. 25.—Stuffing her mouth full of bichloride of mercury tablets, Mrs. Opal J. Reeder, wife of John R. Reeder, of 415 North Wabash avenue, attempted suicide. She probably would have succeeded but for her husband and sister, who discerned her act and forced her to spit out the tablets by choking her. However, some of the tablets had partially dissolved and Mrs. Reeder had swallowed a small quantity of the poison. A physician was called and administered emetics, removing the poison from the woman's stomach. Domestic troubles are said to have prompted the woman to attempt to end her life.

FROST HITS CANNING WORKS.

Plymouth, Ind., Sept. 25.—The heavy frost of Monday night did widespread damage in this county. The chief individual losses were sustained by the Plymouth Canning factory. Of its fifty-eight acres of tomatoes but thirteen had been used and the crop was not half ripened. If the weather stays mild without further frosts the factory will realize a per cent on the present crop of tomatoes. As to corn, the whole crop is killed. There may be saved, however, what can be gathered in the next day, but the whole crop will soon sour and be rendered useless. The corn product of the canning factory was one of its chief enterprises.

PAVING QUESTION COMES UP.

Geneva, Ind., Sept. 25.—The hearing of the remonstrance against the proposed paving of a number of streets will be heard in the council chamber here Monday. When the preliminary notice was given early in the summer a number of property owners remonstrated on the proposed improvement, and the final hearing of the remonstrators was postponed until the first Monday in October. It is expected that the proposed improvement will be postponed indefinitely, as the members of the council will retire from office the first of the year.

DECLARES HIM TO BE SANE.

Bluffton, Ind., Sept. 25.—A jury in Justice Rinehart's court heard evidence in a case in which Leroy Anderson alleged that Lon Oxley was dangerously insane. After a short deliberation the jury held that Oxley was not even insane, and expressed opinions after the trial that Anderson had been guilty of acts to aggravate Oxley. The latter suffered a paralytic strike a few years ago that weakened him physically and mentally to an extent, but the jurors expressed the sentiment that if not molested he was not a dangerous character.

ACCEPTS POSITION AT LAGRANGE.

Lagrange, Ind., Sept. 25.—J. Frank Snyder, who recently resigned as editor of the Warsaw Daily Union, will come back to Lagrange in a couple of days. The Lagrange Call and the Lagrange Democrat have consolidated and Mr. Snyder will be placed in charge of the new paper. Mr. Snyder went to Warsaw from Lagrange several years ago.

IT IS VERY EMPHATIC.

Vice President Marshall's Letter on Lew Fuller Parole Petition.

Goshen, Ind., Sept. 25.—In his letter regarding the effort being made to release Lew Fuller, of this city, serving a life sentence at Michigan City prison for wife murder, Vice President Marshall declares that the crime was a duplicate of the famous Hinshaw case. Fuller, like Rev. William E. Hinshaw, declared that his wife had been killed by an unknown burglar, and like Hinshaw, he still professes that his conviction was a miscarriage of justice. Mr. Marshall said that as governor, he declined to consider clemency for Hinshaw because, in the face of the evidence against him, he still persisted in proclaiming his innocence.

"I had then no doubt and have none now, that it was a most cruel, brutal and unprovoked case of wife murder," wrote Vice President Marshall concerning the Fuller case. "I believe that had I not insisted upon life imprisonment the jurors would have sentenced him to be hung, but I would not, as you know, consent to the taking of the life of a man."

HE DIED SUDDENLY.

Bluffton, Ind., Sept. 25.—John Marshall, aged 48, a well known citizen of Bluffton, died very suddenly at the home of Mrs. Mary A. McAfee, at the corner of Wabash and Union streets, where he has resided for years. Death was due to nephritis, from which he had been suffering for the past two years. He had complained from pains in his heart and it is possible that his condition was complicated by organic heart trouble. Mr. Marshall came home about 10 o'clock from the Odd Fellows' club rooms, where he is employed as custodian, and he went directly to his bedroom to retire. He had been in his room only a few moments, when Mrs. McAfee heard him cry for help. She and other members of the family rushed to him and found him only partly undressed and lying prostrate across the bed. He had apparently been sitting on the edge of the bed when he became sick and had fallen backward.

An Old Recipe to Darken Hair

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you have darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

THE SENTINEL'S DAILY SCRIPTURE READING.

Jonah 3:1-10.

1 And the word of the Lord came unto Jonah the second time, saying,

2 Arise, go unto Nineveh, that great city, and preach unto it the preaching that I bid thee.

3 So Jonah arose, and went unto Nineveh, according to the word of the Lord. Now Nineveh was an exceedingly great city of three days' journey.

4 And Jonah began to enter into the city a day's journey, and he cried, and said, Yet forty days, and Nineveh shall be overthrown.

5 So the people of Nineveh believed God, and proclaimed a fast, and put on sackcloth, from the greatest of them even to the least of them.

6 For word came unto the king of Nineveh, and he arose from his throne, and he laid his robe from him, and covered him with sackcloth, and sat in ashes.

7 And he caused it to be proclaimed and published through Nineveh by the decree of the king and his nobles, saying, Let neither man nor beast, herd nor flock, taste any thing: let them not feed, nor drink water:

8 But let man and beast be covered with sackcloth, and cry mightily unto God: yea, let them turn every one from his evil way, and from the violence that is in their hands.

9 Who can tell if God will turn and repent, and turn away from his fierce anger, that we perish not?

10 And God saw their works, that they turned from their evil way; and God repented of the evil, that he had said that he would do unto them; and he did it not.

The Unifying Element.

In the course of a recent address Dr. Charles S. Woods, citizens' non-partisan candidate for mayor at Indianapolis, dwelt at some length upon the unifying element of the non-partisan movement in city affairs, and his remarks are quite as applicable to the situation in Fort Wayne as to that in the state capital. It is a significant phase of the movement to drive party politics from municipal affairs that is of first importance. Nothing could be more indefensible than the old-time program of senseless divisions and partisan bitterness over local affairs. The average citizen of Fort Wayne wants good government. With his neighbor he wants Fort Wayne to make progress. He is anxious to see decency, order and efficiency as the measure of his city government, and for the life of him he cannot advance any valid reason why all the people should not be pulling together for better conditions instead of allowing themselves to be separated into hostile camps and wasting perfectly good energy in a senseless war over party issues that as a matter of fact do not exist in properly meeting and dealing with municipal problems.

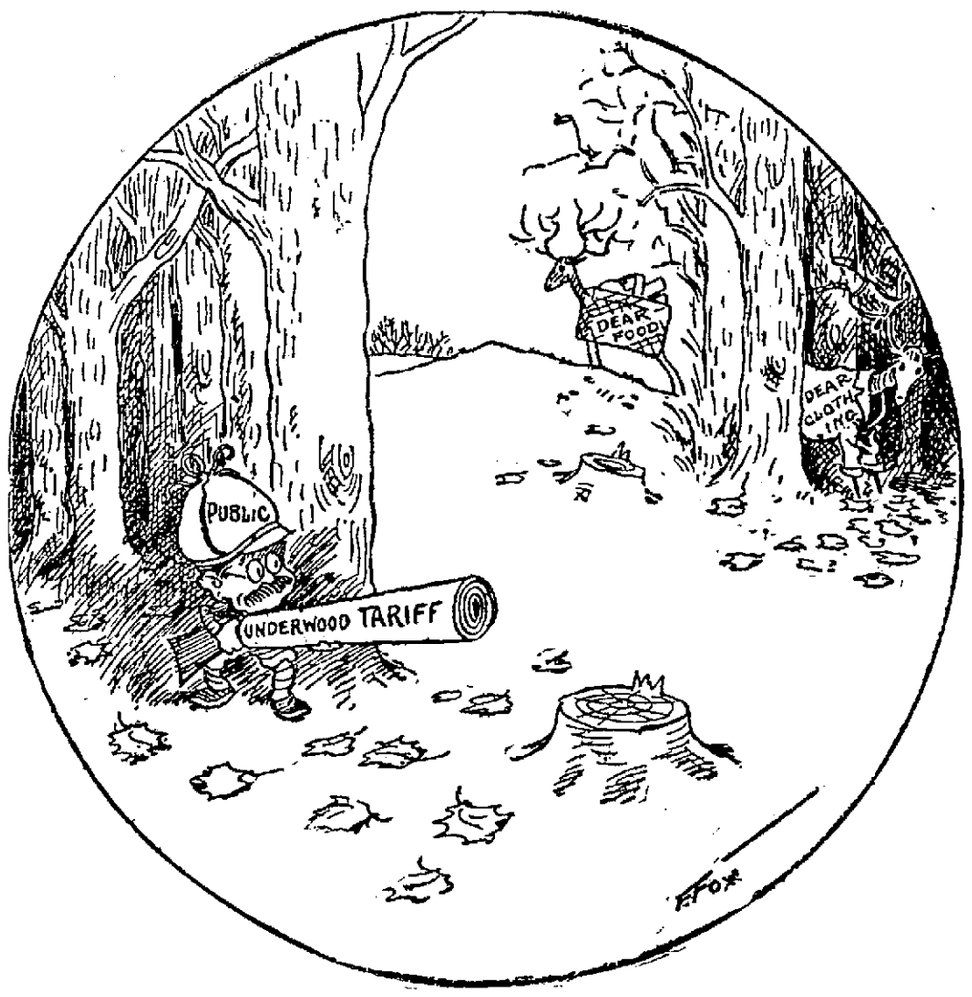
The Indianapolis nominee places emphasis upon the fact that as a harmonizing power the non-partisan movement is both welcome and timely, for it offers a common ground on which voters may come together. All who desire reform may fall into its victorious ranks without the sacrifice of political opinion or party fealty. It can and will do for the betterment of the city what is manifestly impossible for any single political party to accomplish in the midst of partisan bitterness. Partisan adherents are contending for no principle in municipal contests. Their campaign resolves itself into what Dr. Woods calls "unrestrained enthusiasm for certain candidates and the deification of these gentlemen," entirely overlooking the fact that Fort Wayne's welfare is of vastly more concern than the cheap triumph of any partisan organization. It is this principle of unified action that the non-partisan movement has enunciated, and it is this principle for which it is contending. It is not a new party. It is not another political machine that hopes to drive itself into power over the wreck of another just as bad. It is the harmonizing element that would enlist the co-operation of every citizen of Fort Wayne in doing sanely and capably the things that ought to be done in municipal affairs. It is not a division but a unification of the people to secure the better government which the old system of discordant partisanism has demonstrated that it cannot supply.

It is interesting to note that the Chautauqua platform is beckoning to Vice President Marshall, and there is no sort of doubt but that the Indiana man would prove a star of first magnitude on the lecture circuit. But doubtless, also, the vice president will take into due consideration the fire of criticism to which Mr. Bryan has been subjected before he attached his signature to a contract. In the varying views of the propriety of a high public official delivering addresses for compensation, the vice president probably will not escape some caustic comment from those who profess to see in it the lowering of the dignity attaching to the second official position in the land.

Having been cut out of the limelight for some time, Laporte once more comes to the front with a new Belle Gunness clue. When all else fails, Laporte can always fall back on this medium of centering public interest for a brief time at least.

One Illinois "original Wilson man" has submitted 20,000 letters of endorsement of his application for an appointment in the treasury department. It is to be hoped that if there are any other reasons why he should be chosen he has not forgotten to include them also.

SPEAKING OF THE HUNTING SEASON.



Fox in the Chicago Evening Post.

BUSINESS AND A CLEAN CITY.

(Indianapolis News.)

The business men and manufacturers are doing all they can to build up Indianapolis, and make of it a great city. The Mars Hill enterprise, that has cost so much money and thought and work, is well under way. It is hoped and expected that many factories may be brought here. It seems, therefore, a fitting time to consider the elements that make a city attractive to those who are looking for a new home. Lawlessness and vice are surely not among them. Fathers and mothers—whether they be rich or poor—shun these things. They will not come to a town in which it is known that children are not safe. Churches, schools, parks, playgrounds, libraries, innocent and clean amusements—these are what they look for. Law enforcement there must be, or else the children will not be safe.

A high moral tone, and a clean city government are valuable assets. The town that is without these can not hope to attract the right sort of people. Loafers and sports and toughs are drawn, and in large numbers, to such a town. But they are a burden and a curse. They contribute nothing to productive industry, but are on the contrary a drag and a drain. They help to pollute still further an already polluted atmosphere. We want men and women who will work hard, play rationally, take care of their families and contribute to the moral as well as the material upbuilding of the city. This is good business as well as good ethics.

A wide-open town is a town in which taxes are certain to be high, in which government is of necessity wasteful and corrupt. The police force is sure to be inefficient, and also much larger than would be needed under proper conditions. Looseness spreads from department to department. Laxness in enforcing some laws finally shows itself in the attitude of the authorities toward all laws. Favoritism to one class is extended to other classes—and this means corruption, extravagance and high taxes. Of course under such a regime neither life nor property can be safe. No one will or can argue that such conditions are good for business. They are one and all antagonistic to it. Cities, as individuals, have reputation and character. If they are to thrive they must be jealous of both.

A LOBBYIST'S POOR EXCUSE.

(New York World.)

James A. Emery's studied defense of the manufacturers' lobby at Washington, of which he was the head, may be summarized in the words, "Gompers is to blame."

Mr. Gompers and others of the Federation of Labor have been urgent advocates of legislation favorable to workingmen, no doubt, but they did not do what Emery did. They had no hidden council of defense. They kept no pay roll on which their supposed enemies could enter their names. They made no secret efforts to defeat opponents and reward friends. They monopolized no room in the capitol. They had no tips for employes of the house and senate. They were not on calling terms with Speaker Cannon, and in order to head off tariff reform they did not advocate a tariff commission.

Mr. Gompers worked in the open. The lobby worked in the dark. Otherwise Col. Mulhall would have had nothing to expose.

PRESS COMMENT ON CURRENCY BILL.

"The More the Better."

Philadelphia Press: "The more the Owens-Glass currency bill is amended the better it becomes. This fact is the strongest argument against haste in the enactment of a new currency law."

"Power Great."

Washington Star: "The president's power is very great. It may not be so great next winter or spring. He wants to do business with congress on this question while everything seems propitious for him."

"W. J. Bryan."

Brooklyn Eagle: "William Jennings Bryan, once the anti-gold champion of the universe, was quoted on the floor as favoring the gold amendment. We have no doubt that he was correctly quoted."

"Gold Standard."

New York World: "If congress means what it says when it re-enacts the gold standard, why does it not make the new federal reserve notes redeemable in gold? Why compromise with notorious error?"

"Victory of Gold."

Boston Post: "Incidentally, but not unimportantly, was the victory of the gold standard amendment by 104 to 38. Times have changed since that 'cross of gold' speech."

"In a Nutshell."

Rochester Post-Express: "In a nutshell, the Democrats are going to give the country a financial system fathered by men who lack experience and disclaim special knowledge of the subject, against the opposition of men who have had experience and claim special knowledge."

TODAY'S LEADERS.

(Kansas City Times.)

The men who are the leaders in politics today are men who take their obligations seriously. Such men as Wilson, Roosevelt, Hiram Johnson, Major Hodges, have held popular confidence because they regarded public office as a public responsibility. The day of the petty politician whose highest ambition is to get a job for himself and the boys is passing.

"GIVE US PICTURES!" CHILD STARTS REFORM IN SCHOOL INSTRUCTION.

ELIZABETH BURLINGHAM, THIRD GRADE.

Evanston, Ill., Sept. 24.—Little Elizabeth Burlingham is going to be famous.

She has won fame already here in Evanston, and that's something for an eight year old girl in the third grade. But before long every city in the United States may know about her.

And millions of school children may have their lessons made pleasanter just because of this pretty little girl—and her father.

Little girls always need their fathers to help them carry out their plans. And so, when Elizabeth came home from school last June, after her teacher had asked her to "make some nature collections" during the summer, to use next term, she just naturally asked her father to help.

"You see," she explained, "teacher is always giving us 'nature talks,' telling us about birds and animals and Indians and plants and mountains and street cars and things. And she says it will be nicer if we bring in different kinds of flowers and plants and butterflies and other things—or else pictures of them—for us to look at while she tells us about them. And I know that's true.

Now, some fathers would have said, "Oh, nonsense! I've no time for such silly stuff." Many little girls' fathers in Evanston said that very thing. But Charles L. Burlingham wasn't that kind of father.

He was very busy, of course, every day, in his Chicago office. But he promised to do it. And so, every evening, the whole summer, father worked for hours helping Elizabeth with her "collection."

When school opened Elizabeth was the happiest little girl in Evanston. For father went with her to the school house, carrying 800 beautiful pictures mounted on black cardboard, all neatly arranged, and every one of them labeled like this:

Central Street School,
Evanston.
The Elizabeth Burlingham Collection.

You see, children learn with their eyes more than with their ears. And so, whenever the teacher is telling Elizabeth and her schoolmates about an owl or a buffalo or a pond lily or an Indian wigwam or a mountain or a steamboat, or a fire engine or the capitol at Washington or the Old North church at Boston, or explaining how to cross a street without being run over by a street car or an automobile, why, she just hangs up one of these pictures on the wall and the children look at it and understand everything she tells them.

Elizabeth's father is going right ahead, adding to her collection, and he expects to have 3,600 pictures by the end of this year. They'll all fit into the classified list of subjects and there's no limit to the number.

He hasn't paid a cent for any of the pictures, and doesn't expect to.

People just give them to him. He writes to railroads and city officials and street car corporations and manufacturers and friends, and they send him the pictures he wants or lend him negatives to make prints from. And he gets picture postcards from all over the country.

Anybody can do that.

ADENOIDS ARE A MENACE TO CHILDREN.

Babies and young children must be carefully watched for the growth of adenoids, which spoil the mental and physical life of a child. They usually result rom a succession of colds and throat irritations, and their presence is so productive of harm, that many school boards have an examining physician to detect them. The conditions that cause them may be easily avoided by careful parents. Quickly and thoroughly cure all colds and throat irritation by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Dreier Drug Co.—Adv.

Of the many lovely parties of this season for coming brides none has been prettier or more original in its planning than Miss Mae Centlivre's Japanese entertainment for a dozen friends in honor of Miss Grace Griswold, this afternoon. The guests had been requested to bring a shower of bags and these Miss Centlivre placed in a bag of generous dimension that was her gift to the honor guest and it hung on her chair at supper time with a fluffy bow of red tulle indicating the place at the table. The coloring of the decorations was red, that not only being suggestive of the Japanese character of arrangements but being a favorite with Miss Griswold. Over the lovely table hung an inverted Japanese umbrella and in it were sachets which the hostess had provided as favors. These sachets were wrapped in white and tied with red ribbon, one end of which was long enough to hang over the edge of the umbrella. These ends were marked with mother of pearl initials G. and H. There was a row of tiny lanterns hung to the umbrella edge and underneath it on the table lay smilax and red roses in a circle. On the table were red candles whose holders were tied with red tulle and the place cards were butterflies of gay coloring that were perched on tops of chairs and had the name of the guest tied to them with a bit of ribbon. During the afternoon the guests sewed and visited.

Wood—Dawson.

Elegance and beauty were characteristic of the wedding of Miss Hulji Dawson, only daughter of Mrs. C. M. Dawson, and Mr. Harold Lewis Wood, younger son of Judge and Mrs. Sol A. Wood, which took place on Wednesday evening at 8 o'clock at the home of the bride, 1301 West Wayne street. Relatives and a few family and personal friends were present. The officiating clergyman was Rev. Dr. Samuel Wagenhals, a lifelong friend and pastor of the family, and the marriage service was impressive and beautiful. The bride walked in alone and made a beautiful appearance in her handsome gown and veil. Preceding the bride Misses Winifred Bicknell and Pauline Saylor had stretched white ribbons across the livingroom to the stairway and the music of the "Lohengrin" bridal march on harp and violin announced the bridal party. The ushers, Messrs. George Boomer, of Louisville, Ky.; Marshall Goff, of Pennville; James Meriwether and Carl Schroeder, of this city, entered the room followed by Dr. Wagenhals, the bridegroom and his brother, Mr. Carver Wood, who was best man, and the Misses Jane Meriwether, Anna Dreier, Florence Lang, Helen R. Harper and May Jewell Smith, who were bridesmaids. Each bridesmaid was gowned in white and wore a green girdle in deference to the wishes of the bride to have only the colors of green and white predominate. The bride's cousin, Miss Jane Meriwether, as maid of honor, varied the color scheme slightly as her lovely gown of white imported chiffon was embroidered elaborately in pale yellow roses and her bouquet was of yellow roses of the variety known as the melody. The bride's gown was rich and handsome but also severely plain. The satin, over which the imported and beautiful embroidered chiffon hung, was a part of the bride's mother's wedding gown, made forty-three years ago. The dress was made with watteau plait hung from the shoulders and medium long train. The bodice had a yoke of point applique lace and the slight drapery of the skirt and at the corsage was held with orange blossoms. Orange blossoms also held the veil, which was edged with rare old lace, to the hair. The bridal bouquet was of bride roses. The bridesmaids' bouquets were of a variety of graceful ferns. The bride was married with a ring made from her mother's wedding ring. After the bride and groom had received congratulations they led the way for the bridal party to the diningroom where a collation was served very informally by Mrs. Schumacher. The table was decorated with a basket of melody roses and ferns and a handsome lace cloth. The decorations throughout the house were palms, southern smilax which festooned all the walls, mantels and stairway, and chrysanthemums, arranged by the Misses Flick. In the livingroom only white flowers were used massed with russet oak leaves and filling tall white wicker vases and showing in contrasting effect on the mantel. In the rest of the house yellow was the contrasting color. Coffee was served in the bookroom and there were stationed the musicians, Mrs. Horton and Mr. Simon, who played during the evening and during the ceremony, "O, Perfect Day." Receiving the guests as they arrived were Mrs. Dawson, Judge and Mrs. Wood, Mrs. James M. Meriwether and Mr. and Mrs. Willis Maier, of Chicago, an uncle and aunt of the bride. Other visiting guests were Mr. and Mrs. John V. Simeral and son, John, and Mr. Frank Maier, of Chicago; Mr. and Mrs. Fred B. Cupin, of Bloomington, Ill.; Dr. and Mrs. John Thom-on, of Garrett; Clark Powers, of Angola, and Miss Celia Wise, of Chicago. Later in the evening amidst a shower of rice and other symbols of good luck the bride and groom left for a few days' trip to lake points. After the first of November they will be at home in Louisville where Mr. Wood has the position of private secretary to the vice-president of the Federal Creosoting company. Mr. and Mrs. Wood will have an apartment in the Parkside apartment house in Bonnycastle avenue. For traveling the bride wears a becoming and modish brown corduroy suit, with brown chiffon blouse and hat of brown velvet and satin with trimming of yellow pansies.

Don't

Wear heelless shoes unless you wish to spoil your feet.

Walk with the "lazy lope" unless you want ugly round shoulders.

Wear narrow skirts and new wired tunics if you are fat.

Put on heavy underclothes unless you are courting tuberculosis.

Use rouge unless you are over 30.

Blacken your eyes, brows or lashes unless you want to look hard.

Let your dentist fill your front teeth with gold.

Wear cheap jewelry, chiffon blouses or peek-a-boo silk stockings on the street.

Drink cocktails or smoke cigarettes because you have been told it was smart.

Think you can eat improper food, take no exercise, sleep little and make yourself beautiful with paint and powder.

Forget that a smile will always add beauty to youth and glorify age.

Says Billie Burke.

Here are a few "don'ts" which I consider so important to the girl who would be beautiful that I put them over a sign board. You have heard them before, but have you heeded them? Cut out this advice and stick it in your mirror where will often see it, for no girl can neglect the physical part of herself and expect to have a clear, clean mind and contented spirit.

—BILLIE BURKE.

SOUSA AND HIS BAND TONIGHT.

Appear Under Auspices of Morning Musical Society at Majestic.

He was a wise man who said, "Let me make a people's songs and I do not care who makes their laws." When Sousa brings out his "Stars and Stripes Forever," at one of his out door concerts, the audience will cheer and shout itself hoarse with enthusiasm. Why is this? Because Sousa has done what no other American composer has achieved, he has expressed the national spirit, and has taken the over-taxed medium of march music and vitalized it, making it dynamic with energy and irresistibly infectious. And his famous band presents his music to his audiences in a peculiarly Sousa style. His soloists must also be of exceptional merit, for people have formed a habit of expecting the best at a Sousa concert. Those who will appear here with Sousa and his band, when they play at the Majestic theater tonight, are Miss Virginia Root, soprano; Miss Margel Gluck, violiniste, and Herbert L. Clark, cornetist.

AT THE TEMPLE

The Temple bill changes today and it will be another of those popular bills chuck full of comedy that has made the Temple the brightest spot in Fort Wayne.

Walter E. Deaves and Company presents "The Merry Manikins," by far the greatest and funniest of all manikin acts. They have just completed their second tour of the world and they have made millions of people laugh and will add several thousand more during their stay here as the act is guaranteed to the management as a real laugh producer.

Other big Keith and Orpheum comedy features on the bill will be Albert Hawthorne and Frank Burt in their latest comedy success, "A Raw Recruit;" Patsy Doyle, the droll comedian, is well known here and comes with a new line of patter; Devlin and Ellwood in a classy comedy skit, "The Girl From Yonkers;" Newport and Stirk come with a riot of laughter entitled "A Barber's Busy Day," and the first run photo-plays completes a most attractive bill and it's laugh from start to finish.

AT THE EMPRESS

No act that has appeared in Fort Wayne in ages has created the same amount of favorable comment that has Bernard and Lloyd now at the Empress theater. The former is one of the cleverest delineators of a type of the Hebrew ever seen locally and there is nothing offensive in his work to members of that race. Bernard is a brother of Barney Bernard, the well-known Hebrew comedian, who at present is playing the role of "Potash" in the new play, introduced in New York, founded on the Potash and Perlmutter stories that appeared in the Saturday Evening Post. Mr. Bernard presents the same type of stage Jew that his brother does, and their work is greatly similar. The act of Bernard and Lloyd is refreshingly new. It is one of the most enjoyable numbers of a show full of features.

AT THE JEFFERSON

The Jefferson is offering two good photo-plays tonight—one an Imp dramatic entitled "The Miser's Son," and the other a burlesque farce, "The Pearl of the Golden West," a real rip roaring western comedy. Friday comes a four-reel version of Sir Walter Scott's "Ivanhoe." You will find that this production will meet your expectations. This film was made in England and possesses the quality of atmosphere to a remarkable degree. Friday, as usual, Ralph Patterson and Rae Collins will be on the program. A new face will also make his first effort before an audience. The effort will be a number of selections on an accordeon.

Have your heavy coat made ready for wear on the first day it is needed. Send it to us now while it is in your mind, and you will be sure of its being ready when wanted. Troy Dry Cleaning Co. Phone 6003.—Adv.

Of Interest to Women.

When the drawn work in linen doilies or any other fancy work is worn out and the centers still remain good, stitch a row of insertion over the drawn work.

A dainty white handkerchief seen the other day had, instead of the ordinary hemstitched border, a tiny blanket stitch design not more than an eighth of an inch in width, worked over the raw edges in vivid colors—blue, red or green.

There is a nightgown designed especially for travelers who must pass the night on a train or boat. It is preferably made of black silk and has a pocket in which toilet articles may be tucked and a big hood, which may be slipped over disheveled hair for the trip from the berth to the dressing room. Some women wear a black silk cap to save annoyance from dust and cinders and to keep the hair from getting disarranged while sleeping.

One of the popular forms of embroidering towels is by means of darning. Huckaback toweling is used for these designs, as the huck is woven with little tufts or threads, under which the needle is passed in darning. The needle used should have a blunt point and long, smooth eye. Flower forms are often seen on these towels, the edges and turned back petals of the flowers being embroidered in satin stitch, while the centers are filled with darning.

Varnished wall paper should be washed with a whitewashed brush and warm soapy lather. Squeeze the brush slightly after it has been dipped in the lather and work from the ceiling downward, finishing one patch all the way down before starting upon the next.

Dark leather that has become shabby will look like new again if it is rubbed over with either linseed oil or the well beaten white of an egg mixed with a little black ink. Polish the leather afterward with soft dusters until it is quite dry and glossy.

Why Headache as a Schoolgirl Complaint

(By a Physician.)

The headache is the bugbear of the girl at school.

There are several reasons for this schoolgirl complaint.

They are so simple and so easily remedied that we wonder when attention is called to them, that we have not thought and acted before.

One of the commonest causes is short-sightedness. An equally common one is farsightedness.

The bad air of school rooms is another.

Tight corsets, late lunches, continuous reading without the proper counterbalance of outdoor exercise are also first aids.

Headaches are always more frequent among girls who think a great deal and have a highly nervous temperament than among the girls who treat life lightly and do not worry.

The very active girl who gets plenty of exercise is usually free from them.

There are two well known types of schoolgirl headache.

The first and most common one, perhaps, is the indigestion headache. Its chief causes are insufficient or unsuitable foods, the candy and pastry habit and indolence. The cure of this is plain, wholesome food at regular times and proper exercise in the open long enough to offset the hours of study and confinement in the school room.

The second type of headache is the "sick" headache.

It gets this name from the fact that it is accompanied with a constant nausea or sickness at the stomach. With the schoolgirl, this headache often begins in the morning as soon as she wakes from a heavy sleep. She feels an intense pain in the temples, which sometimes extends to one eye. The hands and feet get clammy. She has an offensive breath and a coated tongue.

The remedy is a gentle emetic, which will cause vomiting without too much strain. Then give the stomach a good rest and the headache will pass off naturally.

To sum it up, the school girl with the headache is very often the girl whose diet is not plain enough or whose supply of exercise and fresh air is lacking.

We cannot expect the schoolgirl to know this unless she is taught. The parent is the proper teacher.

New classes will be organized in all departments of the International Business College, day and evening, during the week, Sept. 29 to Oct. 6. 25-3t

THE VELVET SLIPPER.

A velvet slipper seems an absurd thing for street wear, yet it is very smart at the moment. The new slippers in black velvet are strapped across the instep, sometimes with a cut silver buckle, or again with a flat enamelled black and white buckle.

NEWEST FASHIONS IN WHICH YOUNG GIRLS MAY DRESS THEIR HAIR.

There comes a time in every girl's life when her hair seems her greatest tragedy. It is when mother thinks she is not old enough to do it up and when she herself is fully determined that to have her hair done in the latest style for "grown ups" is all that could by any possible chance make life worth living.

If you can wear your hair parted there is nothing that will be prettier or more stylish this fall, as every one—girls and women alike—wear their hair parted and, above all, in such a way to show the contour of their heads.

Don't wear a fluffy pompadour. They are hopelessly out of date.

If you have long straight hair and a round face put your hair in three braids, one of which you let hang down and the other two wind about your head. This is a fine way to display a wonderful suit of hair.

The simpler a young girl dresses her hair the better. You can wear it in the way that is most becoming if you only wear it over your ears and close to your head.

The picture shows the very latest and most popular ways of doing children's and young girls' hair, but you can modify them to suit your own style.

WE DRY CLEAN RUGS

A few discriminating persons know that there is but one way to clean a rug and this is by the Dry Cleaning Process.

Beating, blowing or sucking the dust out of a rug is all right if the dust is all you want out of it, but if you want the fabric cleaned, the grease and discoloration removed and the nap restored to its original colors, the rug must be cleansed.

That is easy to understand. A moment's contemplation will enable you to agree that dusting a rug does not remove the dirt any more than dusting a soiled suit of winter clothes, and you would never be satisfied with the suit without having it dry cleaned.

We Cleaned the Rug for Fox Bros.

The large rug displayed by Fox Bros., upon which the thousands of people walked during fair week, was restored to its natural colors by us through the dry cleaning process. For some time we have been preparing to handle fine rugs, giving them the same process of cleaning that we give the finest suits and gowns. It has required special sized washers and extractors and special dry tumblers. We have them and we solicit a trial on small rugs guaranteeing to give them the same treatment given your garments.

TO ELIMINATE WIRE DANGERS

Alley Lines in Lakeside to Be Made Safe by Board of Works.

THE MUNICIPAL NEWS

The board of works, General Manager Smith, of the municipal lighting system, and representatives of the Fort Wayne and Northern Indiana Traction company, today made an inspection of a dangerous situation that exists in the alleys of Lakeside by reason of a multitude of electric wires.

In some of the alley there are three pole lines carrying the lighting wires for two systems and the wires for one telephone system. Overhead there is a perfect network of wires, and the danger to life and property from crossed wires is great. The board of works and the two private corporations will try to carry out a plant for a single joint pole line by which the perils can be eliminated.

This was done in South Wayne some time ago. There are other sections of the city where similar situations exist, but none of them is as bad as that in Lakeside. All such conditions will be done away with as fast as the board and the corporations can get to them.

The old stable on the power plant grounds has been ordered removed and there will be some gain in appearance as well as saving of insurance from that.

SCARLET FEVER SHOWS AGAIN.

Second Case of Month Reported—Diphtheria Situation romising.

The second case of scarlet fever to be reported during the present month got into the health department records today. The last previous case was reported September 15. The diphtheria situation is considered satisfactory and the fear that an epidemic might ensue from the numerous cases in the city during the month of September, which is the watermark for a period of almost twenty years. For almost a week an average of but one new case a day has been maintained and with the schools in session this is taken to mean that the situation is under control. The health authorities continue to urge teachers and parents to vigilance in all cases of juvenile illness and with special emphasis on every complaint of sore throat.

CITY ATTORNEY RETURNS.

City Attorney H. G. Hogan returned today from a two weeks' vacation, most of which was spent at Battersea, Canada, near the source of the St. Lawrence river. He reports cool weather, wary fish, a trip to Montreal, a visit with "Shag" Shaughnessy, late manager of the Fort Wayne baseball team, and a great joy to be back at the workbench in the city's law department.

WOMEN WANT TO KNOW.

Mrs. William S. Morris, president of the Women's league of Fort Wayne, has asked the board of safety if in the opinion of that body the appointment of a police matron is necessary in this city. She has been referred to Chief of Police Dayton F. Abbott for specific information. The board has appointed Miss Fannie Winch police matron, but the city council has not created the office or made provision for its salary.

WILL EXAMINE THE TITLES.

City Attorney and Park Board Getting Ready for Condemnation Suits.

City Attorney Harry G. Hogan and the park board are ready to take the first steps in suits for the condemnation of lands wanted for the proposed east side park. Most of the land has been arranged for at satisfactory prices, but a few parcels needed to carry forward the board's plans are held at rates considered excessive, and the suits are instituted to have the land legally appraised. City Attorney Hogan will at once examine the title to the lands in question as a preliminary to the filing of condemnation suits.

At its meeting yesterday the park board formally directed the city attorney to begin these suits. No other business of importance was transacted by the board.

WOULD RUB OUT THE JOG.

Board of Works Wants Kink Taken Out of Webster Street.

The board of works is asking the city engineer to consider plans for taking some of the jog out of Webster street at its intersection with Lewis. Excavation for the new pavement is about completed and the work of putting in the concrete foundation is ready to begin. The board thinks that the jog should be modified before the pavement is put down and that it can be done at slight expense. If the engineer can find a practicable way to do it the kink will be taken out at once. Contractor Mart Grace expects to have the street completed in a short time.

PLAN CONCRETE DIKE.

Southern Water Barricade at Power Station to Have Appearance.

The board of works is planning a concrete section for the southern portion of the dike that is being constructed around the power plant of the municipal lighting system on the northside. Earth has been used to construct the balance of the dike, but it is desired to have something a little more nifty for the southern exposure of the flood barricade. A concrete wall with perhaps a little ornamentation in the way of an iron fence is in the minds of the board members as about what would look well and be reasonable in cost.

DIX SUFFERING MUCH PAIN.

Frank Dix, chief electrician of the municipal lighting department, is suffering much pain from his right arm, which was broken yesterday while he was cranking an automobile.

WILL AWARD CONTRACT.

At tonight's meeting of the board of public works a contract will be awarded for the construction of a cement sidewalk on the north side of Kinnaird avenue, from Fairfield to South Wayne avenue. At 3 o'clock this afternoon little business had been scheduled for the meeting tonight.

Much Interest in Labor Federation Election at Terre Haute.

FORT WAYNE IN 1914

Terre Haute, Ind., Sept. 25.—Interest in the state federation of labor convention in session here centered today in the report of the tellers who are counting the vote cast this morning for the various state officers. Their report is expected to be ready for the closing session this afternoon.

Action on resolutions submitted yesterday were in order while the tellers were counting the vote. The resolution committee reported adversely on a resolution asking that the reproduction of Fort Harrison be stricken from the official badges and the convention concurred in the report. A resolution attacking the democratic and republican parties and asking the federation to adopt a political plan, was tabled. A number of minor resolutions were acted upon.

Charles Fox, of this city, was re-elected president of the federation, and Fort Wayne was chosen as the next convention city.

Senator John W. Kern was the principal speaker at the annual banquet last night. He paid a tribute to the development of organized labor in Indiana and praised the leaders in the movement.

Senator Kern mentioned his high regard for Eugene V. Debs and Samuel Gompers and advised the 300 delegates assembled that the congressional report of the strike situation investigation in the West Virginia coal fields would be made within a few days. He said the report of the committee would be unanimous in condemning the conditions in West Virginia.

Charles Fox, secretary-treasurer of district No. 11, United Mine Workers of America, of Terre Haute, and Phillip K. WARNER MISSING; MANAGER LOOTS

Clinton Street Tea Store is the Scene of Some Lively Doings.

PLUNDER GOES CHEAP

Creditors of Herbert M. Warner, who came here last summer and started a tea store at 717 Clinton street, would like to locate him. He left the city September 8, stating he would return in three or four days and since that time nothing has been learned of him.

While Warner has been away his local manager, Clayton Bennear, has been doing things to the stock that will make the creditors weep when they know of it. Bennear was arrested today by Detective Sergeant Immel and is held at police station. He will probably be slated for larceny. He came here from Toledo about the time Warner left and has been in charge of the store.

This morning Hattersley and Sons took out an attachment against the stock in the store to secure themselves for Warner's arrears in rental. Constable Bagby nailed a barricade on the door and supposed he was in possession as an officer of the court. In a little while Bennear arrived from Toledo. He went to the store, found it nailed up and at once proceeded to break in. Once inside he added to the souses he brought in with him and when arrested was uproariously and helplessly drunk. Meanwhile the Outfitters' company saw the store open and seized office furniture purchased of them on credit by Warner and moved it across the street to their store.

Since Warner's departure Bennear has said to have been realizing on the stock for his own benefit. At prices ridiculously low he has sold tea, olive oil, suit cases and whisky. The sale of two suit cases and a traveling bag of the value of $15 or $20 for $2 came to Sergeant Immel's attention and he started the investigation that led to the uncovering of Warner's affairs. Bennear sold about $50 worth of olive oil and $36 worth of tea to a local hotel for a total of $10, the tea being worth $36 and the oil $50. He had raided a case of bottled whisky, but most of this he drank himself. Bennear has been drunk most of the time since Warner left.

Heaton & Heaton today got possession of two shipping cases of traveling bags and suit cases that belong to a Milwaukee firm and are upaid for. There is in the store a considerable stock of cheap jewelry, novelties and notions doubtless for use as premiums to tea customers.

A large accumulation of mail addressed to Warner consists evidently of bills.

Harry G. Hogan, city attorney, with Robert Fox, Charles Reuss and Barney Ainsley have returned from a fishing expedition to the St. Lawrence river.

DRAFT PRICE IS HELP TO MINORS

Central League Clubs Are Not Badly Shot Up This Season.

JUST ONE REMAINS

In addition to swelling the coffers of the minor league teams the increase in the draft price has been of very material benefit to owners whose teams have heretofore been badly shot to pieces by the inroads of magnates, bent simply on speculation, and who had no idea of using or attempting to use the men they drew from the minors.

No club in the Central league stands to lose more than one more player as only the class A draft remains and this will leave each with a pretty fair start for next season.

Here in Fort Wayne there is the possibility that Harry Martin or Ted Anderson will be drafted as they can be had for $600 each, and they are worth the money to any class A club. There is a further possibility that the choice will fall on Grover Cleveland Young, the most unlucky pitcher in the half-dozen circuit last season, as Jimmy Burke thinks well of him and many of the managers in the class A leagues are his friends and will consult him before placing their drafts.

This will leave Fort Wayne with Colligan, Welch and Bratchi for the outfield, Nesno, Tuman and possibly Anderson for the infield, Martin and Wager on the catching staff unless the former is lost, and, without Young, Ainsworth, Atkins and Loudermilk.

If these men play the same kind of ball they played all last season they will make the start of a pretty nifty club and only a shortstop will be needed to fill in. It is likely, however, that another right-hander will be added to the staff.

Terre Haute can lose one more man and still have something to start with. Beilstein may develop into a Hal Chase. Evers will do at second, Gorman at third, Craig at short and Wheeler, Anderson and Donahue will do to start an outfield.

The club will need a new catcher but Cantwell and Madden have been left on the pitching staff.

Most of the Evansville players of last season, those that helped out the team most, were loaned by New Orleans, and Manager Charles Knoll will have to hustle again. Stratton and Durrell will do for the catching staff.

Grand Rapids will also have a start. Schmick, Stell and Mee are left of the infield, Lejuene and Tydeman of the outfield, Ed and Sherrod Smith of the pitching staff, and Lake of the backstopping department. This means that the pitching corps will have to be built up, a new catcher signed, a second baseman obtained and a first catcher added.

Dayton retains Sykes, Mee, Laber and Erve Martin, of the infield, DeHaven, of the outfield, both Warren and Armstrong, the catchers, and Compton and Stremmel, of the pitching division.

At Springfield most of the players were turned over to the Indianapolis club but there is no need for Joe Stanley to worry as President Sol Meyer will turn over enough good men in the spring to build up his team from.

Any one of the players named on each of the club rosters may be lost, but when the time for spring training in 1914 comes nearly every team will have a pretty good foundation after deductions are made for the men who will have gone back and who will be unable to hold down places.

FRAMING UP THE SAME OLD FIGHT

National League Magnates Talk of Ditching President Tom Lynch.

BARROWS FOR PLACE

New York, Sept. 25.—If the National league magnates do not fight among themselves, it is openly predicted by insiders that Thomas J. Lynch will not be re-elected president of that ancient organization at the annual meeting here in December. These same insiders say that the magnates have an eye on the international league president, as his managment of the minor league has been such as to cause them to sit up and take notice.

It was a well known fact that Lynch was doomed to defeat last year until he conducted his successful crusade against Horace Fogel. His triumph was so complete that when the election was held in December he received the votes of all the clubs. Opposition to Lynch developed early last season because of certain rulings which, handed down honestly, did not please some of the club owners. As a member of the national baseball commission Lynch gave an excellent account of himself, according to his fellow commissioners, Ban Johnson and August Herrmann, but the National league men demanded a change. Opposition this year has increased in certain quarters for the same reasons. Lynch has been scored by several club owners for the way he has handled the umpires, yet there isn't the slightest doubt that Lynch has tried to be fair and impartial in his treatment of everybody.

He has followed the Ban Johnson policy of suppressing the kickers, regardless of consequence.

The assertion that Lynch favored the Giants because he was elected at the instance of the late John T. Brush has fallen flat, baseball men say, in view of Lynch's recent decision in the Brennan forfeit case, which has been carried on appeal to the board of directors by the New York club. Up to the handing down of this decision it was said that the New York club alone favored the re-election of Mr. Lynch, but whether Lynch still can count on the support of the Giants when the ballots are cast, remains to be seen.

M'GRAW TABOOES SPRING SERIES.

Declares He Will Refuse Chance's Offer, but Might Play in Fall.

New York, Sept. 25.—While Frank Chance, manager of the Highlanders, was anxious to have his team play the Giants a series of games in the spring, there will be no meeting between them. Manager John McGraw announced that he will not allow his men to play, claiming that no team is capable of getting into fit condition to engage in such a hard series in the spring, and besides the pitchers are not ready at that time to twirl their best ball. He declared, however, that in the event of neither club winning the championship next year he would agree to have the Giants play the Highlanders a series of games in the fall.

LANGFORD AGAIN DENIED BOUT.

New York Commission Once More Refuses Negro Chance at Smith.

New York, Sept. 25.—The Garden Athletic club has announced that the ten-round bout arranged to take place in Madison Square garden next Friday night between Gunboat Smith, of California, the leading white heavyweight, and Sam Langford, of Boston, the veteran colored pugilist, is off. This announcement was made shortly after the New York Athletic commission had decided unanimously to retain the rule prohibiting bouts between negro and white pugilists in this state. The commissioners declare they are not discriminating against race or color.

ROOTERS ARE ORGANIZING.

Getting Ready for City Championship Game at League Park Saturday.

Rooters at the Fort Wayne Electric works and at the Western Gas Construction company are organizing for the city championship game to be staged at League park Saturday afternoon between the teams representing these two manufacturing concerns.

Intense rivalry has sprung up between the employes of the two concerns and it has developed into a question of which will give its team the best support.

The fact that there is to be no charge for ladies is expected to help out as there are plenty of girls in both institutions who are real rooters and who expect to turn out in numbers.

CAN'T AFFORD TO HAVE KIDNEY TROUBLE.

No man with a family to support can afford to have kidney trouble, nor need he fear it with such a remedy at hand as Foley Kidney Pills. You can not take this honest curative medicine into your system without good results following. It cleans out and builds up the kidneys, and makes them able to strain out of the blood the impurities that cause backache, weak back, sore, inactive kidneys and sleep-disturbing urinary troubles. DISLIKE FOR COLLEGE PLAYERS CAUSE OF STOVALL'S LOSS AT ST. LOUIS.

Detroit, Mich., Sept. 25.—George Stovall's sometimes expressed, but much more often repressed, antipathy to college-bred ball players was really what caused his discharge from the managerial position with the St. Louis American league club.

This statement was made recently by a man prominent in athletic affairs at the University of Michigan, and it was pointed out that the action of Stovall in releasing "Pud" Rodgers, catcher, to the Chattanooga team in the Southern league, and Lavens to the Philadelphia Athletics, was "the straw that broke the camel's back."

Stovall had been at odds with Colonel Hedges and President Ban Johnson, of the American league, for some months. But the ruction was not serious enough to cause his dismissal. Branch Rickey, present manager of the Browns, was coach at the University of Michigan last spring, and he recommended Rodgers and Lavens to Colonel Hedges.

Hedges being impressed with Rickey's letters, sent contracts to the players and received their signatures.

Stovall didn't give Rodgers much of a chance and "Pud" had hardly become acquainted with the wrinkles in his uniform when he was shipped on to the Chattanooga club. Not long afterward Lavens, while not a strong hitter, had made a great record as a fielder with the Browns, and inasmuch as it was Stovall's task to build up a team of young players, the disposal of Lavens particularly did not rest very lightly on Rickey's chest. Rickey was closer to Hedges than Stovall and Stovall, of course, was tagged to walk the plank.

Lavens, according to no less of an authority than Hugh Jennings, is bound to become a rattling good ball player. He is as clean a fielder as there is in the American circuit and he is one of the best men in the league in tagging runners at second base.

JOE JACKSON SAYS THAT CONNIE MACK'S ATHLETIC PITCHING STAFF IS NOT STRONG ENOUGH.

(By Joe Jackson.)
Satement by the Greatest Natural Batsman in the World.

The Athletics will lose the world's series this year because of a weak pitching staff. I look for the Giants to win four straight games.

Connie Mack's two best pitchers are Ed Plank and Chief Bender. Of the two, the Chief looks the better. He will be effective, as he always is.

Plank is tired from overwork and unless the few days' rest he will get before the series gives his arm the needed strength he will go into the series stale.

Joe Bush, one of Mack's youngsters, won't last over three innings if the Giants wait him out and don't hit until they have to. Bush strains every nerve and muscle in his body at every throw. He can't stand nine innings.

Carrol Brown doesn't use his best ball enough. He has a spitter as good as any I ever looked at when it is working right, and the spit ball is hard to hit. But Brown doesn't mix it enough with his other stuff. His curves and fast ball aren't enough.

Shawkey, Mack's third youngster, won't last any longer than Brown. Shawkey's pitching might hold out, but the crowd in New York will get his nerve.

Coombs, world's series veteran and a real pitcher when he is right, can't help Connie this fall. A man just recovering from a serious illness such as Coombs had can't possibly build up his strength in such a short time to last him through a game under the strain world's series pitchers work under.

There is just one chance for the Mackmen to win.

If the Athletics can hold a safe lead to the end Connie may be able to rest up Plank and Bender and be on edge for the games.

This would put a different complexion on the series.

I'm pulling for the Athletics because they're in the American league, but it sure looks like the Giants to me.

THE DISCOVERY OF A SIMPLE RECIPE HAS BROUGHT A FORTUNE

A recipe was made by a singer who had suffered for years with severe indigestion, and by the help of a celebrated French doctor, who had told him of a vegetable with marvelous digestive properties, this vegetable was used in a sauce which the singer added to his food and in the cooking. Carloads of Waw-Waw have now been sent to different parts of the world, and in every place it has had a phenomenal success. The best cooks in Europe pronounced the sauce unexcelled. It adds a zest and piquancy when used in the cooking and with soups, salads, hot and cold meats and fish which is unequalled, and at the same time one feels one can digest anything. Waw-Waw (an obsolete South American Indian word for vegetable) is a purely vegetable sauce and contains no raw spices and is guaranteed absolutely pure. Waw-Waw is unlike all other sauces and although it resembles a Worcestershire, yet the ingredients used are quite different. It costs very little to try this wonderful Waw-Waw, which is now to be found in the principal hotels, railroads and homes in America. A 25 cent bottle will convince you how much more you will enjoy your food by adding Waw-Waw and how easily you will digest your food.

ONE WHITE WOMAN FIGHTING CHINESE TONGS SINGLE-HANDED TO SMASH GRIP OF THE YELLOW SLAVERS ON PACIFIC COAST.

MISS DONALDINA CAMERON AND SOME OF THE GIRLS SHE HAS RESCUED FROM YELLOW SLAVERY AND IS EDUCATING IN CHINESE AND ENGLISH.

San Francisco, Sept. 25.—Down in the heart of San Francisco's Chinatown a battle is being fought by one white woman, who is fighting single-handed against highbinder societies, opium smugglers, the hatchet men and hired assassins of the tongs, to save Chinese girls from slavery.

She is Donaldina Cameron, than whom no one person in the world is more cordially hated and feared by Chinatown's underworld. Slight, delicate, prematurely gray, Miss Cameron is not the woman you would pick out on the street as the leader of a little band that attacks the slave strongholds of Chinatown in the still watches of the night, armed with axes, battering down barricaded doors and rescuing girls from the clutches of yellow slavery.

On the outskirts of Chinatown is the Presbyterian mission of which Miss Cameron is the head and where, for fourteen years, she has waged her lone fight against the tongs. Here at present are housed seventy-five girls she has rescued. They are being educated in English and Chinese by native and white teachers. When of marriageable age they are often married to young men who are found to be honorable.

In fourteen years Miss Cameron has rescued and educated more than 1,000 Chinese girls.

Miss Cameron is known to every Chinese on the Pacific coast and she is greatly loved or hated, accordingly, as her name spells either hope or terror.

Yellow slavery began in San Francisco in the early 70's. At that time an American missionary estimated that there were 2,600 Chinese slave women in San Francisco and only 120 women of respectable occupation, out of a Chinese population of 30,000. Little progress was made against the evil owing to the lack of cooperation on the part of municipal authorities. One of the highbinder leaders boasted that he had paid $10,000 to "fix" a case against several Chinese arrested for keeping slaves. Miss Cameron's ceaseless campaign has reduced nine-tenths the number of slave women in Chinatown.

Victims of the yellow slavers are obtained from China, where agents, operating from Hong Kong, lure them to this country under promise of marriage. Others are brought in as the wives and daughters of Chinese who take trips to China.

Girls from eight to fifteen are often sold into domestic slavery by their parents and made household drudges. It is difficult for Miss Cameron to rescue these unless she can prove that they are cruelly treated. This traffic in children has a tendency to feed the traffic in social slavery, for many of the youngsters when they grow up are put into slave houses.

Miss Cameron has a small corps of efficient and courageous assistants and with these she is making a winning fight against the organized corruption of the Chinese highbinders who have millions behind them.

ST. LOUIS ALLEY, THE MOST NOTORIOUS OF THE MANY DARK PASSAGES IN SAN FRANCISCO CHINATOWN, WHERE THE SLAVE GIRLS ARE IMPRISONED.

therefore, that the city clerk be authorized to deliver to it a sufficient number of copies of the 1912 supplement of the ordinances of the city of Fort Wayne to enable it to make such exchange.

Very respectfully,

HAD ANOTHER SCARE AT SHOPS

Fire Broke Out in Shaving Cupola at Pennsylvania Planing Mills.

BURNED BRISKLY FOR A FEW MOMENTS

The Company's Department Quelled Blaze Before Much Damage Was Done.

Fire was discovered in the shavings in the cupola at the Pennsylvania planing mills' boiler plant at 7:30 o'clock this morning and created considerable excitement for a few moments. The Pennsylvania fire department responded promptly and had the fire out when the city department reached the scene. The loss is estimated at about $100. The origin of the fire is unknown, but it is believed to have been from a spark from the smoke stack or from spontaneous combustion. Shavings are the chief fuel at that boiler plant. They are conveyed from the planers, the saws, the mortising and the boring machines in the planing mills through large pipes, the power being big fans. The shavings are dumped into a bin near the front of the boilers, where the fireman can reach them with his scoop. The flooring in the cupola was damaged so that it will have to be replaced by a new one.

INSPECTIN THE IMPROVEMENTS.

S. E. Cotter and Other Wabash Officials Making Trip over Line.

S. E. Cotter, general superintendent of the Wabash, and some of the other officials are making a tour over the system, making note of the progress in the various improvements now under way. Mr. Cotter spent the night in Peru and came up here early this morning. He left at 11:50 o'clock this morning for Toledo and will go thence to St. Louis via Chicago. With Mr. Cotter were Supt. J. C. Sullivan, Division Engineer W. S. Danes, Trainmaster C. E. Wells and Mr. Newcomer, the special accountant for Mr. Cotter.

BURNED BY GASOLINE.

Foreman C. A. Contant had his face and left hand burned and Machinist Clayton Gouty had both hands burned yesterday when gasoline from an open blow pipe caught fire from flames of another blow pipe and exploded. Mr. Gouty's wounds were most severe and had to be attended to by the company's surgeon. Machinist A. J. Morell, who works in the same shop, put out the fire with a bucket of water before the flames did any damage to the building. The accident happened in the shop just west of the main machine shop and the fire was caused by Mr. Gouty removing the tap of the blow pipe under the impression that it was empty and allowing the gasoline to spill out over the bench and the floor.

LIKES FORT WAYNE BEST.

"We had a most pleasant time in California and other parts of the country visited by us during our western trip," said Charles A. Agster yesterday, in speaking of the tour. "but we saw no place in our minds that compares favorably with Fort Wayne as a permanent residence. While in the west I was informed that there were many people there who formerly resided in Indiana who would gladly return here to reside if they could dispose of their holdings advantageously." Mr. Agster is a machinist and will resume his duties in the Wabash shops next Monday. He and Mrs. Agster arrived home Tuesday.

SHOPMEN WERE THE VICTORS.

All of the prizes at the progressive pedro party given by Old Fort council, No. 192, Royal League, last night were won by Pennsylvania employes, giving emphasis to the reputation they have for pedro players. P. Walsh, of the boiler shop, won first prize; Max Zeisig, the machinist, carried off the second, and Erecting Shop Foreman John T. Leach secured the third prize. The party was largely attended and the guests were given a good time.

SPECIAL TRAIN TO KENDALLVILLE.

The G. R. & I. ran a special train of twelve cars from Sturgis and intermediate points to Kendallville this morning and brought down a crowd of upwards of 1,000 people who will attend the fair at that city. Conductor Muldara and Engineer A. H. Closterman had charge of the train. Travel into Kendallville from the south on account of the fair was very light on the steam road, but it is understood that the interurban handled a good deal of it.

MR. CONICK HERE.

J. T. Conick, general foreman of the Fifty-fifth street shops of the Pennsylvania, was in the city on railway business today and took advantage of the opportunity to visit some of his friends in the local shops and offices. Mr. Conick is the father of John Conick, for several years connected with the motive power department of the Pennsylvania in this city, but now in Wisconsin.

VANDALIA OFFICIALS HERE.

Three or four of the Vandalia officials were in the city today on business connected with the joint Vandalia-Pennsylvania Toledo passenger trains put into service three months ago. Among the visitors were Master Mechanic J. E. Melching, of Terre Haute, and J. W. Parks, chief clerk of Motive Power Superintendent W. O. Arp, also of Terre Haute.

INSTALL REFRIGERATING PLANT.

P. A. Dunbar and W. G. Vesey, machinists, have nearly completed the work of installing a refrigerating plant in the St. Joseph hospital, which is a part of the equipment of the big addition to the institution. This is one of the largest plants installed in this part of the country by the Audiffren Refrigeration company.

INDUSTRIAL NOTES.

Pennsylvania Firemen J. F. Carpenter and F. Smith are sick and off duty.

E. L. Roth, a machinist at the Pennsylvania erecting shop, is off duty as a result of an injury to one of his hands. The accident happened at Mr. Roth's home.

U. H. Kohler, passenger engineer on the Pennsylvania, has taken a two weeks' lay-off for the purpose of visiting some relatives and friends out of the city.

Mrs. J. C. Brake, wife of the stenographer at the Pennsylvania road foreman's office, will go to Chicago tomorrow to spend a few days with her brother, Frank Hutchins, who is quite sick.

Chief Clerk Fred Shaphorst is again at his desk in the office of Foreman H. T. Hogan, of the Pennsylvania machine shop. With his wife and son, Mr. Schaphorst spent a week with friends and relatives in Chicago.

J. G. Thomas, traveling car service man of the Baltimore & Ohio road, with headquarters in Dayton, Ohio, was the guest of James B. Elliott, claim clerk of the Wabash freight office, yesterday and last night.

W. G. Vesey and H. Spear, who are taking a student's course at the Fort Wayne Electric works, have been transferred from another to the general testing department of the big works. They are preparing themselves for superintendents of lighting and power plants.

Foreman Joe Colone and his half-dozen or more assistants have returned from Ashley, where they spent a week in taking out a boiler and placing it on the cars for shipment to Fort Wayne. The boiler will be repaired here and re-installed in the heating plant at Ashley.

Thomas Morris, the Wabash boilermaker who had the misfortune to lose the sight of one of his eyes some time ago, called at the shops this morning to see his comrades. The optic has not recovered and Mr. Morris will return to the Decatur hospital tomorrow for further treatment.

Charles V. Bott, a Fort Wayne boy, son of Mr. and Mrs. Urban Bott, took employment with the Lima Locomotive works Sept. 15. He began work in the Wabash shops in this city and four or five years ago was transferred to Moberly, Mo., where he was a department foreman.

Machinist Fred S. Williams, of the Wabash shops, had some of the bones of one of his feet broken yesterday and the member badly bruised when a heavy piece of metal he was handling fell upon the foot. Dr. C. F. Kaadt, the company surgeon, attended Mr. Williams and he will probably go to the Peru hospital to stay awhile.

Foreman George A. Szink, of the Pennsylvania blacksmith shop, accompanied Mr. and Mrs. M. F. Singhiser and Mrs. Szink to Chicago yesterday. WELL KNOWN RESIDENT WHO BEGINS A NEW YEAR TODAY.

K. J. FISHER.

The latest photograph of K. J. Fisher, for forty-nine years prominently connected with the Bass works, organizer of the first baseball club in Fort Wayne and the most active and youthful appearing man of his years in the country, is reproduced above. This picture was taken at Atlantic City a few months ago, when Mr. Fisher was attending the annual convention of the Master Car Builders and the Master Mechanics' associations, and it represents him seated in the hotel awaiting the arrival of a friend.

It is no exaggeration to say that Mr. Fisher is as well known in railway circles, and particularly in the purchasing and supplies departments, of the United States, Canada and Mexico as any man in the country. He has visited all the railway centers of those countries in the capacity of salesman for the Bass Foundry and Machine company at various seasons of the year for the past third of a century, and his genial ways and hearty greetings have made him a welcome visitor in every railway office in the land.

Yesterday was the anniversary of the birth of Mr. Fisher, but he refuses to say which one. If the writer had not consulted the records and was guided only by appearance, he would say about forty-five. When asked to make a guess and the writer put the figure at 68, Mr. Fisher sprang to his feet and threw his heels seven feet in the air, with the remark that a "fellow sixty-eight years old couldn't do this, could he?" and he did a double shuffle that would have made a street gamin in his teens green with envy.

Mr. Fisher is a native of Little Falls, N. Y., and came west with his parents in 1853, settling in Chicago, where his father engaged in the undertaking business. The city then had a population of less than 85,000 and Mr. Fisher and his boy comrades made a play house of old Fort Dearborn. He still has some bullets he picked from the logs of the fortress which were fired out of the guns of the hostile Indians. Mr. Fisher's parents died in Chicago, his father in 1853 and his mother in 1857, and he went to Elizabeth, N. J., and remained with a relative until 1861. Then he came to Fort Wayne at the request of his uncle, J. D. Nuttman, in April, 1861. His first work here was as a clerk in the book store of Brooks & Hill. Later he went to the Reed & Wall drug store and remained until August 1, 1864, when he took employment with the Hon. J. H. Bass, the founder and owner of the great Bass Foundry and Machine works, and is still there, one of the active and valued employes. For a third of a century Mr. Fisher has worked in the capacity of salesman and in that time has traveled over 600,000 miles. Only recently he returned from an eastern trip, which included Baltimore, Philadelphia, New York and Cleveland, and is making preparations to embark upon another trip early next week.

Some years ago Mr. Fisher took a more active part in poltical matters than he does at present, though he still keeps in touch with the situation. He was a councilman during the administrations of Mayor Oakley and Mayor Scherer, resigning before the completion of his last term.

The Kekionga baseball club, which attained a national reputation in the latter 60s and early 70s, had its origin in a conversation between Mr. Fisher and Charles Taylor while seated on the steps of the old court house.

There these two young fellows laid the plans which resulted in the organization of a ball team that became as well known in the middle states as the famous Red Stockings, of Cincinnati, with whom the Kekiongas had several games, and many of the older residents of Fort Wayne remember the victorious tour the Kekiongas made under the management of Mr. Fisher through some of the New England states. Mr. Fisher does not play ball now, not because of any physical defect, but because he does not have time. He takes an interest in the game, however, and can tell without a moment's hesitation the standing of the various teams in the American and the National leagues. Notwithstanding the many thousands of miles Mr. Fisher has traveled, he was never in a wreck nor in any way injured.

That reminds me! Mr. Jones was praising his boy up to me the other day. He said, 'He's all wool, you can bet.' I told him I shouldn't wonder, because I notice he shrinks from washing. Ha! Ha! ROAD'S HEADS ARE BLAMED FOR WRECK

"Man Failure" Held Cause of Recent Wreck on New Haven Line.

SYSTEM IS SCORED

Washington, Sept. 25.—"Man failure" all along the line, from officials and directors of the New Haven railroad down to its trainmen, is held by the interstate commerce commission to have been the cause of the Wallingford wreck, Sept. 2, in which twenty-one were killed and thirty-five injured. In its report, the commission blames the crews of the wrecked trains for lapses and scores officers and directors for "inefficiency of management."

Operating officials of the New Haven and the officers and directors of the system are grilled scathingly for promulgation of regulations that were permitted to become practically "dead letters" and for not seeing to it personally that operating conditions were what they had directed them to be.

Puts Blame Higher Up.

"Man failure in this case," says Commissioner McChord, who prepared the report after an exhaustive personal investigation of the accident, "began high up in official authority, and it was not an unnatural sequence that it reached down to those in positions lower in official rank, but still weighted with great responsibility."

In use at the time of the disaster, the report points out, were "antiquated signals condemned by the locomotive engineemen as well as by the public service commission of Connecticut," and old wooden cars unsuited by construction for such traffic as they were expected to accommodate. These were held to ' contributory reasons for the excessive number of casualties.

Commissioner McChord indicates the result of a similar recent accident at Tyrone, Pa., in which the equipment was all steel, and in which none of the passengers was killed, as an object lesson in favor of the use of modern equipment.

The commission demands of the New Haven road the immediate adoption of "an adequate system of superintendence and supervision, which will give those in authority definite and positive information as to whether or not the safety requirements and rules of this railroad are observed."

DOCTORS HAVING SPLENDID SUCCESS

MANY SO-CALLED SURGICAL CASES RELIEVED IN A FEW DAYS' TIME.

The United Specialists have had such an exceptional experience in the treatment of chronic diseases that they are justified in claiming that with their experience and their united system of treatment they can cure many of the so-called incurable diseases. Indeed, it will well repay any suffering person to call on these specialists inasmuch as they are willing to examine any worthy person free of charge. Many well-known citizens of Fort Wayne and vicinity have voluntarily had letters published in these columns, telling the people what has been done for them by the United Specialists. This is naturally highly gratifying to these physicians. Another source of pleasure to them has been the indorsements from men who, before being treated by the United Specialists, had been treated for years by physicians and specialists. Any man who will call at their offices at 124 East Washington boulevard will be referred to any number of men who have asked the doctors to send others to them. Many of the best women in Fort Wayne and vicinity are now taking treatment at their offices and are gladly sending other afflicted ones to them. The United Specialists are conducting their work from a truly humanitarian standpoint, inasmuch as they never charge for treatment any fee that is beyond the reach of any afflicted person who earnestly desires to get well. The charges they make are always based upon the actual cost of the superior methods of treatment and the very best medicines that are possible to obtain. Of course the best always costs a little more than inferior products, but the results are so eminently satisfactory that no thinking person will even entertain the idea of using second-class treatment when they consider the value of their health or their life. If health and happiness are worth anything at all it is surely worth every effort that can possibly be obtained, regardless of what it may actually cost in dollars and cents. This does not mean that the United Specialists make unreasonable charges for their work. They do not have to do this, but they do not need to obtain a very great amount of money from each patient for the many that they treat amply repays them even though the actual profits they obtain from each individual patient does not amount to very much. They would kindly ask anyone who should think of coming out of mere curiosity to remember that it is both a great mental and physical task to thoroughly examine as many patients as these specialists do from day to day. They treat chronic and nervous diseases, including goitre, rheumatism, catarrh, gall stones, kidney diseases, epilepsy, stomach, intestinal trouble. In fact, all deep-seated, chronic diseases and special diseases of men and women. Their hours are from 9 to 12, 1 to 5; evenings, 7 to 8. Sundays from 9 to 12.—Adv.

HOUSES AND ROOMS FOR RENT

MANY people have room they could just as well rent as to allow to remain empty. They are rooms which the family seldom or ever uses but are kept furnished at more or less expense and which produce no revenue. Why not rent them and get the money? Others have houses which sometimes remain vacant for months because they do not let it become generally known that the houses are for rent. At this season of year, when people are returning from vacations, and new people are coming to town, is an especially good time to make public the fact that these rooms or houses are for rent. How shall people be informed that these houses and rooms can be rented? It is very simple and very inexpensive. Use the classified advertising columns of The Sentinel. CALL UP 'PHONE 173.

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Sept. 25.—Big receipts in the spring crop region carried wheat prices today down grade. The opening was unchanged to ⅜c lower and a further decline followed.
The close was steady but ⅝c to ½@⅝c lower.
Clear weather and liberal receipts weakened corn. Longs were the principal sellers. Prices started the same as last night to ¼c off and suffered an additional sag.
The close was nervous, ⅜@½c to ⅞c under last night.
Despite profit taking by shorts, the oats market dragged lower with other grain. Holders unloaded through commission houses.
Provisions ascended owing to offers being light. Transactions varied from last night's level to 5c advance, and there was a continued hardening of the market.

THE DAY ON WALL STREET.

New York, Sept. 25.—After two days of selling pressure the stock market reacted sharply at the opening today when bear traders attempted to get back stocks. Buying was most active in Union Pacific, Steel and Amalgamated, but virtually the whole list moved upward. Gains of one to two points were made in the first few transactions by Reading, Union Pacific, Canadian Pacific, Amalgamated, Utah copper and Alaska gold.
Reluctance to increase commitments on the long side of the market owing to the uncertainties of the present situation in business and finance both at home and abroad rendered aborptive offers to gather a following for an upward movement by marking up prices briskly at the outset today. Advances were forced in some cases purely as a result of strong technical position, but the general movement did not impress the rank and file of traders who sold freely at the top. Bonds were easy.
The market closed firm. When the bears encountered some resistance to their raiding tactics, they turned about and ran to cover. An active buying movement in Alaska gold lifted it 2½.

BREEN CHOSEN BY INDIANA BANKERS

Fort Wayne Man President of Trust Company Section.

WORDEN GETS A PLACE

Indianapolis, Ind., Sept. 25.—The election of officers by the trust company section in the afternoon and the informal dinner at the German house last night brought to a close the seventeenth annual convention of the Indiana Bankers' association, which convened at the Claypool hotel Tuesday morning.

W. P. Breen, president of the People's Trust and Savings company, at Fort Wayne, was chosen president of the trust company section, succeeding B. C. Bowman, vice president of the Muncie Trust company.

M. S. Sonntag, president of the American Trust and Savings bank, of Evansville, at the morning session, was elected president of the Bankers' association proper, succeeding Col. J. L. McCulloch, of Marion.

Preceding the election of officers by the trust company section several important speeches were made, the principal one being on "The Trust Company and Its Relations," by E. E. Gates, an Indianapolis lawyer.

For the trust company section other officers elected besides Mr. Breen are: B. F. Thieland, secretary of the Farmers' and Merchants' Trust company, of Connersville, first vice president; C. L. Balthis, secretary of the Mutual Trust and Deposit company, of New Albany, second vice president; E. H. Ferry, vice president of the Farmers' Trust company, of Indianapolis, secretary (re-elected,) and M. F. Bayard, secretary of the Indiana Trust company, treasurer.

Executive Committee.

Members chosen for the executive committee for three years are: Charles Weisert, of the Citizens' Trust company, Vincennes; N. G. Hunter, president of the Wabash Loan and Trust company, Wabash; E. B. Thomas, secretary of the People's Loan and Trust company, of Princeton. John H. Holliday, president of the Union Trust company, of Indianapolis, was elected a delegate to the trust section of the American Bankers' association meeting to be held in Boston next month.

In the election of officers by the main organization John P. Frenzel, jr., of the Merchants' National bank, Indianapolis, was elected vice president; Guy Bracken, cashier of the Farmers' Deposit bank, of Montpelier, treasurer, and Andrew Smith, of Indianapolis, was re-elected secretary, this being his tenth year in that capacity.

At the close of the noon session the annual meeting of Indiana members of the American Bankers' association was held for the purpose of nominating a member of the executive council to succeed H. C. Johnson, E. S. Gwin, of New Albany, getting the place. A vice president for Indiana to succeed J. C. Johnson was found in the person of C. L. Balthis, of New Albany, and A. Grant Lupton, of Hartford City, was elected to serve on the committee on nominations.

President Sonntag, immediately upon assuming the duties of his office, appointed a committee to represent the organization at the senate hearings on the currency bill. This committee includes F. J. Reitz, of Evansville; Thomas R. Paxton, of Princeton, and C. H. Worden, of Fort Wayne.

IF IT'S WORTHY. IT'S HERE FIRST.

From Feather to Buckle

One line of beauty. We might call her a symphony of grace, the perfectly-groomed, perfectly-gowned modern woman of fashion. But alas! even a symphony may be marred by one crash of discord, and little availeth the modiste's art for the costume whose long, alluring line of grace is broken by an ill-fitting or shapeless Corset.

Warner's Rust-Proof

The Corset that produces the perfect lines of fashion is also the Corset that keeps them perfect. The fitting of a Warner Corset is the first step toward art in dress.

Introducing the New Carpets, Draperies, Rugs and Curtains

In no section of our store is the spirit of Autumn more in evidence than here. The new Carpets and Rugs, in their handsome Autumn brown tones, the new Draperies in their Autumn color schemes, the richest, the prettiest of the year, all speak in no uncertain tones of the arrival of fall. Decorative schemes this season run largely to Grecian and Egyptian Motifs, with an occasional showing of the French designs dating back to the Thirteenth Century: and here and there one in pure Roman. These motifs lend themselves in a bewitching way to the prevailing color tones, and give ample scope for daring originality, and artistic expression in the garniture of the home.

In Curtains of Lace, we so far outshine previous seasons, that it is extremely difficult to describe the exquisite beauty of the new arrivals. We would much prefer to have you see them for yourself. We know there are none better.

NEW RAG RUGS

These pretty, home-like, durable rugs are very much the rage right now, and our showing of them is wonderfully complete. Colors run light or dark as you wish, and they have the genuine home-made appearance that is so dear to the home lover.

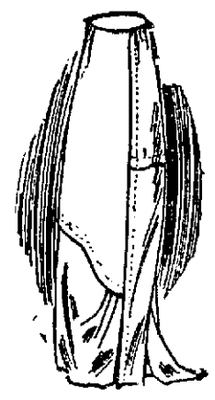
Sizes from 27 by 54 inches, to 6 by 9 feet—

$1.00 to $4.50.

OLD-TIME LOG CABIN RUGS

Odd designs in oblong and circular shapes. The kind grandmother used to make for the spare room and for the floor in front of the fire place—

$2.50 and Up.



First Showing of New Scotch Tartan Plaid Skirts

These are the latest word in separate skirts. The material is a heavy Scotch wool material, closely woven, but having the general appearance of high grade Home Spun. Where it exceeds the home spun is in the splendid coloring of the plaids and checks. In style the skirts are brought down to the last minute. Every style conceit that is worth incorporating in a splendid garment like this, is shown, and we feel sure you find it a great pleasure to make their acquaintance.

With the Scotch Plaids and Checks, came a nice line of the Black and White Honey Comb Checks in two different fabrics. They are fitting companions to the plaids, and will meet with the same warm welcome.

Prices in both lines, covering seven or eight designs—

$6.50 to $10

HINTS AND RECIPES

BY MRS. MARY MILLER.

In my talks on "Hints and Recipes" let me first impress upon your minds that you cannot expect to make delicious pasteries called for in my recipes unless you use the best materials. The most important is the flavoring and experience has taught that a poor flavoring will utterly spoil the best recipe, therefore, I invariably recommend a brand which I know to be pure and which will prove successful in all my recipes.

ONE EGG CAKE.

One-third cup butter, one cup sugar, one egg, one cup milk, two cups flour, three teaspoons baking powder, one teaspoon SOUDERS' Vanilla.

Cream butter, add sugar gradually, then well-beaten egg; sift baking powder into flour and add alternately with the milk. Bake in muffin tins or two layers.

WHITE CAKE. CARMEL FROSTING.

Two cups sugar, one-half cup butter, whites four eggs, one teaspoon SOUDERS' Vanilla, three cups flour, two teaspoons baking powder, one cup milk.

Cream butter, add sugar gradually, then add flour into which baking powder has been sifted, alternately with the milk. Add Vanilla and fold in whites of eggs. Bake in three layers.

Two cups light brown sugar, three-fourths cup milk, butter size of egg, one teaspoon SOUDERS' Vanilla. Boil sugar and milk two minutes, then turn fire low and cook until soft ball test in cold water. Add butter and Vanilla and beat until creamy.

CHOCOLATE PIE.

One-half cup granulated sugar, one-half cup grated chocolate or cocoa, two and one-half tablespoons cornstarch or flour, one cup boiling water, one teaspoon SOUDERS' Vanilla, two eggs, two tablespoons butter.

Mix sugar, cornstarch and chocolate; pour on boiling water gradually and cook five minutes, stirring constantly. Then add beaten yolks gradually and cook two minutes at low temperature. Add butter and Vanilla. Pour into baked shell, cover with stiffly beaten whites to which two tablespoons powdered sugar and a few drops of Vanilla have been added. Place in oven until light brown.

For further recipes see next Thursday's paper.
